HeinOnline -- 1997 vol. I 656 1997

whether the employment relationship was that of an independent contractor. The procedure applies to any revised assessment of centrally assessed property taxed pursuant to chapter 23.

(b) The term "taxpayers", as used in this section, includes all persons determined by the department to have a potential tax liability.

(2) (a) If the department determines that a request for a refund should be denied in whole or part, it shall notify the taxpayer of the determination. The notice stops the running of any applicable statute of limitations regarding the assessment of the tax.

(b) A notice under this section must clearly state:

(i) the reasons for the department's determination that a refund is not due or that tax plus interest and penalty, if any, ~~is~~ *are* due;

(3) (a) A taxpayer shall notify the department, in writing, that the taxpayer objects to the determination within 30 days from the date *that* the notice is mailed. The notification by the taxpayer is not required to specify the reasons for the disagreement or be in any particular form unless the taxpayer is objecting to a determination that an employer-employee relationship existed between the taxpayer and individuals, subjecting the taxpayer to the requirements of chapter 30, part 2. If the taxpayer does not notify the department within 30 days:

(i) an assessment becomes final and the assessed tax, plus any interest and penalty, must be paid;

(ii) the taxpayer waives any further right to review under this section or to appeal to the state tax appeal board; and

(iii) a warrant for distraint may be issued without further opportunity to be heard on the assessment.

HeinOnline -- 1997 vol. I 657 1997

The reasons for objections may be provided in writing, by telepbone, or, if requested by the taxpayer, at an informal conference. An informal conference is not subject to the Montana Administrative Procedure Act.

(c) Within 60 days after the taxpayer has presented ~~his~~ *the taxpayer's* objections, as provided in subsection (3)(b), the administrator or a designee shall issue a written decision addressing the taxpayer's objections and describing the reasons for the determination. The administrator's decision must also clearly set forth the taxpayer's review rights. The administrator's decision must be provided to the taxpayer and the director of revenue.

(4) (a) A taxpayer shall notify the department in writing that the taxpayer objects to the administrater's decision within 30 days from the date that the decision is mailed, or the taxpayer may appeal to the state tax appeal board as provided in subsection (6). If an objection is not made within 30 days, the administrator's decision and any assessment become final. By failing to object, the taxpayer waives any further right to review or appeal and a warrant for distraint may be issued without further opportunity to be heard on the assessment.

(5) The taxpayer shall pay the assessment within 30 days after being mailed a copy of the final decision and assessment unless an appeal is filed with the state tax appeal board. HeinOnline -- 1997 vol. I 658 1997

(6) (a) A taxpayer who validly objects to the administrator's decision may elect to file an appeal with the state tax appeal board. The appeal must be filed within 30 days after mailing an objection to the administrator's decision. If an appeal is filed, the administrator's decision is the final decision of the department.

(b) If the director notifies the board within 30 days after an appeal is filed that the director has not had an opportunity to review the administrator's decision and the director believes that a review may be helpful in resolving the controversy, the board shall stay the appeal for a time *that* the board considers reasonable, not to exceed 90 days except by the mutual consent of both parties. The taxpayer shall provide the taxpayer's objections and reasons for the objections to the director so that the director or the director's designee may review the controversy and issue a decision within the period of the stay granted by the board. If the taxpayer is dissatisfied with the director's decision, the stay must be lifted and the appeal resumed.

(7) The time limits in this section must be applied and interpreted as provided in Rule 6 of the Montana Rules of Civil Procedure, including additional time for mailing. Any time limit may be extended by mutual consent of the department and the taxpayer. The department shall consent to all reasonable requests for extension of deadlines.

(1) The purchase price of the taxable vehicles depreciated by a schedule as prescribed by the department determines the depreciated value.

(2) The depreciated value multiplied by the percent of miles traveled in Montana, as prescribed by 61-3-721, is the market value.

(3) The sum of the market value of all taxable vehicles included in the fleet multiplied by the tax rate for class eight property in 15-6-138 is the taxable value for the entire fleet as provided in 15-6-138.

HeinOnline -- 1997 vol. I 659 1997

(4) To determine the amount of tax due, the taxable value of the entire fleet must be multiplied by the statewide average county mill levy plus state levies as provided in 15-24-103.

(5) To determine the tax due under this chapter, state levies applicable to interstate motor vehicle fleets include but are not limited to levies imposed under ~~15-10-101,~~ 15-10-106, 20-9-331, 20-9-333, 20-9-360, and 53-2-813.

(5) Property is payable or distributable for purposes of [sections 1 through 29] notwithstanding the owner's failure to make demand or present an instrument or document otherwise required to obtain payment.

(6) The presumption provided in subsection (1) does not apply to unclaimed patronage refunds of a rural electric or telephone cooperative if the cooperative uses the refunds exclusively for educational purposes.

**Section 4. Contents of safe deposit box or other safekeeping depository.** Tangible property held in a safe deposit box or other safekeeping depository in this state in the ordinary course of the holder's business and proceeds resulting from the sale of the property permitted by other law are presumed abandoned if the property remains unclaimed by the owner for more than 5 years after expiration of the lease or rental period on the box or other depository.

**Section 5. Rules for taking custody.** Except as otherwise provided in [sections 1 through 29] or by other statute of this state, property that is presumed abandoned, whether located in this or another state, is subject to the custody of this state if:

(7) the property is a traveler's check or money order purchased in this state or the issuer of the traveler's check or money order has its principal place of business in this state and the issuer's records show that the instrument was purchased in a state that does not provide for the escheat or custodial taking of the property or do not show the state in which tbe instrument was purchased.

The amount of the deduction is limited te an amount that is not unconscionable.

**Section 7. Burden of proof as to property evidenced by record of check or draft.** A record of the issuance of a check, draft, or similar instrument is prima facie evidence of an obligation. In claiming property from a holder that is also the issuer, the administrator's burden of proof as to the existence and amount of the property and its abandonment is satisfied by showing issuance of the instrument and passage of the requisito period of abandonment. Defenses of payment, satisfaction, discharge, and want of consideration are affirmative defenses that must be established by the holder.

**Section 8. Report of abandoned property.** (1) A holder of property presumed abandoned sball make a report te the administrater concerning the property.

(2) The report must be verified and must contain:

(a) a description of tlie proporty;

(e) in the case of property held in a safe deposit box or other safekeeping depository, an indication of the place where it is held and where it may be inspected by the administrator and any amounts owing to the holder;

(f) the date, if any, on which the property became payable, demandable, or returnable and the date of the last transaction with the apparent owner with respect to the property; and

(g) other information that the administrator by rule prescribes as necessary for the administration of [sections 1 through 29].

(3) If a holder of property presumed abandoned is a successor to another person that previously held the property for the apparent owner or the holder has changed its name while holding the property, the holder shall file with the report its former names, if any, and the known names and addresses of all previous holders of the property.

(4) The report must be filed before November 1 of each year and cover the 12 months next preceding July 1 of that year, but a report with respect to a life insurance company must be filed before May 1 of each year for the calendar year next preceding.

(5) The holder of property that is presumed abandoned shall send written notice to the apparent owner, not more than 120 days or less than 60 days before filing the report, stating that the holder is in possession of property subject to [sections 1 through 29] if:

The administrator may grant the extension for good cause. (7) The holder of property presumed abandoned shall file with the report an affidavit stating that the holder has complied with subsection (5).

**Section 9. Payment or delivery of abandoned property.** (1) Except for property held in a safe deposit box or other safekeeping depository, upon filing

the report required by [section 8], the holder of property presumed abandoned shall pay, deliver, or cause to be paid or delivered to the administrator the property described in the report as unclaimed; however, if the property is an automatically renewable deposit and a penalty or forfeiture in the payment of interest would result, the time for compliance is extended until a penalty or forfeiture would no longer result. Tangible property held in a safe deposit box or other safekeeping depository may not be delivered to the administrator until 60 days after filing the report required by [section 8].

(2) If the property reported to the administrator is a security or security entitlement under Title 30, chapter 8, the administrator is an appropriate person to make an endorsement, instruction, or entitlement order on behalf of the apparent owner to invoke the duty of the issuer or its transfer agent or the securities intermediary to transfer or dispose of the security or the security entitlement in accordance with Title 30, chaptor 8.

(3) If the holder of proporty reported to the administrator is the issuer of a certificated security, the administrator has the right to obtain a replacement certificate pursuant to 30-8-408, but an indemnity bond is not required.

(4) An issuer, the holder, and any transfer agent or other person acting pursuant to the instructions of and on behalf of the issuer or holder in accordance with this section is not liable to the apparent owner and must be indemnified against claims of any porson in accordance with [section 11].

The advertisement must be in a form that, in the judgment of the administrator, is likely to attract the attention of the apparent owner of the unclaimed property. The form must contain:

(a) the name of each person appoaring to be the owner of the property, as set forth in the report filed by the holder;

HeinOnline -- 1997 vol. I 675 1997

(c) there is no showing that the records under which the payment or delivery was made did not ıneet reasonable coınınercial standards of practice.

(2) Upen payment or delivery of property to the administrator, the state assumes custody and responsibility for the safekeeping of the property. A holder that pays or delivers property to the adminıstrator in goed faith is relieved of all liability arising thereafter with respect to the property.

Upen a filing by the holder of proof of payment and proof that the payee was entitled to the payment, the administrator shall promptly reiınburse the holder for the payment without imposing a fee or other charge. If reimbursement is sought for a payment made on a negotiable instrnment, including a traveler's check or money order, the holder must be reimbursed upon filing proof that the instrument was duly presented and that payment was made to a person that reasonahly appeared to be entitled to payment. The holder must be reimbursed for payment ınade even if the payment was made to a person whose claim was barred under [section 19].

(4) A holder that has delivered property other than ınoney to the administrator pursu:ınt to [sections 1 through 29] may reclaim the property if it is still in the possession of the administrator, without paying any fee or other charge, upon filing proof that the apparent owner has claimed the property from the holder.

(5) The administrator may accept a holder's affidavit as sufficient proof of the holder's right to recover ınoney and property under this section.

(6) If a holder pays or delivers property to the administrator in good faith and thereafter another person claims the property from the holder or anotlıer state claiins the money or property under its laws relating to escheat or abandoned or unclaimed property, the adminıstrator, upon written notice of the claim, shall defend the holder against the claim and indemnify the holder against any liability on the claiın resulting from payment or delivery of the property to the administrator.

(7) Property reınoved from a safe deposit box or other safekeeping depository is received by the administrator suhject to the holder's right to be reimbursed for the cost of the opening and to any valid lien or contract providiıng for the holder to be reimhursed for unpaid rent or storago charges. The administrator need not offer the property for sale if the administrator considers that the probable cost of sale will exceed the proceeds of the sale. A person making a claim under [sections 1 through 29] after the expiration of the 3-year period is entitled to receive the securities delivered to the administrator by the holder, if they still remain in the custody of the administrator, or the net proceeds received from sale and is not entitled to receive any appreciation in the value of the property occurring after delivery to the administrator except in a case of intentional misconduct or malfeasance by the administrator.

(3) A purchaser of property at a sale conducted by the administrator pursuant to [sections 1 through 29] takes the property free of all claims of the owner or previous holder and of all persons claiming through or under them. The administrator shall execute all documents necessary to complete the transfer of ownership.

**Section 13. With the approval of the attorney general of this stato, the administrator may retain any other attorney to commence an action in this state on behalf of the administrator. With the administrator's approval, the expenses and attorney fees may be paid from money received under [sections 1 through 29]. (2) sell its products in the state without a written contract, which conforms to the provisions of 16-3-221 through 16-3-226, with each appointed licensed wholesale distributor;

(3) designate or allow more than one wholesale distributor to sell or distribute a specific brand of the brewer's or beer importer's products to retail licensees in the same area, provided that nothing in this part prohibits the brewer or beer importer from designating more than one wholesale distributor to sell or distribute different brands of the same manufacturer to retail licensees in the same area;

The parties to this agreement recognize that the water rights described in this Compact are

junior to any tribal water rights with a priority date before the effective date of the Compact, including aboriginal rights, if any, in the basins affected.

2. Nothing in this Compact may be construed or interpreted in any manner to establish the nature, extent or manner of administration of the rights to water of any other federal agency or federal lands in Montana other than those of the Fish and Wildlife Service.

3. Nothing in this Compact may be construed or interpreted in any manner to establish the nature, extent or manner of administration of the rights to water of any Indian Tribes and tribal members in Montana.

4. Nothing in this Compact is otherwise intended to conflict with or abrogate a right or claim of any Indian Tribe regarding boundaries or property interests in the State of Montana.

B. State Water Rights

Nothing in this Compact may limit the exclusive authority of the state, including the authority of a water commissioner authorized by state law, to administer all current and future water rights recognized under state law within and upstream of the reserved land covered by this Compact, provided that in administration of those water rights in which the United States has an interest, such authority is limited to that granted under federal law.

C. Abstract

Concurrent with this Compact, the parties have prepared an Abstract, a copy of which is referenced as Appendix 1, which is a specific listing of all of the United States' water rights for Benton Lake and Black Coulee National Wildlife Refuges, that are described in this Compact and quantified in accordance with this Compact. The parties prepared the Abstract to comply with the requirements for a final decree as set forth in 85-2-234, MCA, and in an effort to assist the state courts in the process of entering decrees accurately and comprehensively reflecting the rights described in this Compact. The rights specified in the Abstract are subject to the terms of this Compact. In the event of a discrepancy between a right listed in the Abstract and that same right as quantified in accordance with Articles II and III of this Compact, the parties intend that the quantification in accordance with Articles II and III of this Compact shall be reflected in a final decree.

9. to affect in any manner the entitlement to or quantification of other federal water rights. This Compact is only binding on the United States with regard to the water rights of the Fish and Wildlife Service, and does not affect the water rights of any other federal agency that is not a successor in interest to the water rights subject to this Compact;

*Be it enacted by the Legislature of the State of Montana:*

**Section 1.** Section 2-4-302, MCA, is amended to read:

**"2-4-302. Notice, hearing, and submission of views.** (1) Prior to the adoption, amendment, or repeal of any rule, the agency shall give written notice of its intended action. The notice ~~shall~~ *must* include a statement of either the terms or substance of the intended action or a description of the subjects and issues involved, the rationale for the intended action, and the time when, place where, and manner in which interested persons may present their views ~~thereon~~ *on the intended action.*

(2) (a) The notice ~~shall~~ *must* be filed with the secretary of state for publication in the register, as provided in 2-4-312, and mailed within 3 days of publication to persons who have made timely requests to the agency for notice of its rulemaking proceedings and to the office of any professional, trade, or industrial society or organization or member ~~thereof which~~ *of the entity that* has filed a request with the administrative code committee when ~~such~~ *the* request has been forwarded to the agency as provided in subsection (2)(b).

(b) The administrative code committee shall forward a list of all organizations or persons who have submitted a request to be informed of agency actions to all agencies publishing rulemaking notices in the ~~Montana Administrative Register~~ *register*. The list must be amended by the agency upon request of any person requesting to be added to or deleted from the list.

HeinOnline -- 1997 vol. I 742 1997

(c) The notice ~~shall~~ *must* be published and mailed at least 30 days in advance of the agency's intended action.

(3) If any statute provides for a different method of publication, the affected agency shall comply with the statute in addition to the requirements contained ~~herein~~ *in this section*. However, ~~in no case may~~ the notice period *may not* be less than 30 days or more than 6 months.

(4) Prior to the adoption, amendment, or repeal of any rule, the agency shall afford interested persons at least 20 days' notice of a hearing and *at least* 28 days from the day of *the original* notice to submit data, views, or arguments, orally or in writing. *If an amended or supplemental notice is filed, additional time may be allowed for oral or written submissions.* In the case of substantive rules, the notice of proposed rulemaking must state that opportunity for oral hearing ~~shall~~ *must* be granted if requested by either 10% or 25, whichever is less, of the persons who will be directly affected by the proposed rule, by a governmental subdivision or agency, by the administrative code committee, or by an association having not less than 25 members who will be directly affected.

(5) An agency may continue a hearing date for cause. In the discretion of the agency, contested case procedures need not be followed in hearings held pursuant to this section. If a hearing is otherwise required by statute, nothing ~~herein~~ *in this section* alters that requirement.

(6) If an agency fails to publish a notice of adoption within the time required by 2-4-305(7) and the agency again propeses the same rule for adoption, amendment, or repeal, the propesal must be considered a new proposal for purposes of compliance with this chapter.

(7) At the commencement of ~~any~~ *a* hearing on the intended action, the person designatod by the agency to preside at the hearing shall read aloud the "Notice of Function of Administrative Code Committee" appearing in the register."

**Section 2.** Section 2-4-305, MCA, is amended to read:

**"2-4-305. Requisites for validity — authority and statement of reasons.** (1) The agency shall consider fully written and oral submissions respecting the proposed rule. Upen adoption of a rule, an agency shall issue a concise statement of the principal reasons for and against its adoption, incorporating in the statement the reasons for overruling the considerations urged against its adoption. If substantial differences exist between the rule as propesed and as adopted and the differences have not been described or set forth in the adopted rule as that rule is printed in the ~~Montana Administrative Register~~ *register*, the differences must be described in the statement of reasons for and against agency action. When written or oral submissions have not been received, an agency may omit the statement of reasons.

(2) Rules may not unnecessarily repeat statutery language. Whenever it is necessary to refer to statutory language in order to convey the meaning of a rule interpreting the language, the reference must clearly indicate the pertion of the language that is statutory and the portion that is an amplification of the language.

(3) Each proposed and adopted rule must include a citation te the specific grant of rulemaking authority pursuant to which the rule or any part of the rule is adopted. In addition, each propesed and adopted rule must include a citation

HeinOnline -- 1997 vol. I 743 1997

to the specific section or sections in the Montana Code Annotated that the rule purports to implement. *A substantive rule may not be proposed or adopted unless:*

*(a) a statute granting the agency authority to adopt rules clearly and specifically lists the subject matter of the rule as a subject upon which the agency shall or may adopt rules; or*

*(b) the rule implements and relates to a subject matter or an agency function that is clearly and specifically included in a statute to which the grant of rulemaking authority extends.*

(4) Each rule that is proposed and adopted by an agency and that implements a policy of a governing board or commission must include a citation to and description of the policy implemented. Each agency rule implementing a policy and the policy itself must be based on legal authority and otherwise comply with the requisites for validity of rules established by this chapter.

(5) To be effective, each substantive rule adopted must be within the scope of authority conferred and in accordance with standards prescribed by other provisions of law.

(6) Whenever by the express or implied terms of any statute a state agency has authority to adopt rules to implement, interpret, make specific, or otherwise carry out the provisions of the statute, *an adoption, amendment, or repeal of* a rule ~~adopted~~ is not valid or effective unless it is:

(a) consistent and not in conflict with the statute; and

(b) reasonably necessary to effectuate the purpose of the statute. *A statute mandating that the agency adopt rules establishes the necessity for rules but does not, standing alone, constitute reasonable necessity for a rule. The agency shall also address the reasonableness component of the reasonable necessity requirement by, as indicated in 2-4-302(1) and subsection (1) of this section, stating the prineipal reasons and the rationale for its intended action and for the particular approach that it takes in complying with the mandate to adopt rules.* Subject to the provisions of subsection (8), reasonable necessity must be *clearly and thoroughly* demonstrated *for each adoption, amendment, or repeal of a rule* in the agency's notice of proposed rulemaking and in the written and oral data, views, comments, or testimony submitted by the public or the agency and considered by the agency.

(7) A rule is not valid unless it is adopted in substantial compliance with 2-4-302 or 2-4-303 and this section and unless notice of adoption of the rule is published within 6 months of the publishing of notice of the proposed rule. If an amended or supplemental notice of either proposed or final rulemaking, or both, is published concerning the same rule, the 6-month limit must be determined with reference to the latest notice in all cases.

(8) An agency may use an amended proposal notice or the adoption notice to correct deficiencies in statements of reasonable necessity, in citations of authority for rules, and in citations of sections implemented by rules."

## ARTICLE III

## UMNW&SR WATER RIGHT IMPLEMENTATION

B. Method for Calculation of Monthly Depletions Subtracted from the Available Water Supply.

1. Surface Water. Except as provided in Article III, section C, the Department will calculate depletions from surface water based on monthly depletion factors for various types of water use in accordance with the Method for Calculation of Monthly Depletions attached as Appendix 1 in the month that the use occurs. The Department will subtract monthly depletions from the AWS monthly amounts.

2. Groundwater. Except as provided in Article III, section C, the Department will calculate depletions from groundwater based on monthly depletion factors for various types of water use in accordance with the Method for Calculation of Monthly Depletions attached as Appendix 1 and spread the depletions in equal increments throughout the year with 1/12th of the annual depletion volume subtracted from each AWS monthly amount.

3. Stored Water. Except as provided in Article III, section C, the Department will calculate depletions from stored water based on monthly depletion factors for various types of water use for the months of use in accordance with the Method for Calculation of Monthly Depletions attached as Appendix 1, but subtract such depletions from the AWS in the months when diverted as calculated in accordance with the Method for Calculation of Monthly Depletions attached as Appendix 1. The Department will calculate evaporation depletions in accordance with the Method for Calculation of Monthly Depletions attached as Appendix 1 and subtract such depletions from the AWS montbly amounts.

4. Water Reservations. Except as provided in Article III, section C, the Department will calculate depletions from state water reservations granted pursuant to 85-2-316 but not completed on or before December 31, 1987, based on the monthly depletion facters for various types of water use in accordance with the Method for Calculation of Monthly Depletions attached as Appendix 1 and subtract such depletious from the AWS monthly amounts, except that the Department will not subtract depletions from Wator Reservation No. 72579-41T from the AWS monthly amounts. The Department will process state water reservations subtracted from the AWS monthly amounts that are abandoned, revoked, modified, or found invalid pursuant to Article III, section D.

C. Uses Not Subtracted from the Available Water Supply.

1. Non-Consumptive Use. The Department will not subtract non-consumptive uses from the AWS monthly amounts.

2. Uses of 35 gallons per minute or less, not to exceed 10 acre feet per year. The Department will not subtract groundwater uses of 35 gallons per minute or less, not to exceed 10 acre feet per year, and surface water appropriations of 35 gallons per minute or less, not to exceed 10 acre feet per year for domestic use from the AWS monthly amounts.

3. Supplemental Water. The Department will not subtract supplemental water uses from the AWS monthly amounts.

4. Lawn and Garden. The Department will not subtract depletions for appropriations to irrigate an area 5 acres or less from the AWS monthly amounts.

HeinOnline -- 1997 vol. I 774 1997

D. Additions to the Available Water Supply.

1. Abandonment. When an appropriation right on a stream affected by this Compact is abandoned after December 31, 1987, and such abandonment causes water to become available for appropriation, the Department will calculate the previous depletion amount in accordance with the Method for Calculation of Monthly Depletions and add such amount to the water volumes designated for the Available Water Supply. State law governs the issue of whether an abandonment has occurred.

2. Modified, Revoked, or Invalid Appropriations. When an appropriation right on a stream affected by this Compact is modified, revoked, or found invalid and such modification, revocation, or invalidation causes water to become available for appropriation, the Department will calculate the previous depletion amount in accordance with the Method for Calculation of Monthly Depletions and add such amount to the water volumes designated for the Available Water Supply.

E. Basin Closure. Except for the uses provided for in Article III, section C, in the Missouri River basin upstream from the point that the Missouri River leaves the boundary of the UMNW&SR the Department shall not process or grant an application for an appropriation in any month in which the water volume designated for the Available Water Supply has been exhausted.

G. Administration and Reporting by the State.

1. Department Administration. The Department will administer the AWS by subtracting depletions from the monthly available water amounts following the procedures set forth in the Method for Calculation of Monthly Depletions attached as Appendix 1. In order to monitor the water volumes in the AWS, the Department will calculate preliminary monthly depletions and subtract the amounts from the AWS. The Department will make final subtractions from the AWS when the Department determines that an appropriation is completo pursuant to 85-2-315 or 85-2-316(8)(b), MCA.

Appendix 1

Method for Calculation of Monthly Depletions

A. Surface Water.

Depletion factors are grouped by the use codes now employed by the Department, and tbe monthly depletion factors for each type of water use are set forth below.

1. Fishery, Wildlife, Recreational, and Wildlife/Waterfowl Uses:

FS Fishery

FW Fish and Wildlife

RC Recreation

WW Wildlife/Waterfowl.

The water loss resulting from fishery, wildlife, recreational, and wildlife/waterfowl uses occurs as evaporation from small pends. The following

table lists the monthly depletion factors for evaperative loss in feet per surface acre:

Monthly Depletion Factors for Evaporation

| | |
|---|---|
| January | 0.00 |
| February | 0.00 |
| March | 0.00 |
| April | 0.08 |
| May | 0.17 |
| June | 0.26 |
| July | 0.50 |
| August | 0.51 |
| September | 0.35 |
| October | 0.26 |
| November | 0.04 |
| December | 0.00 |

The Department will calculato monthly depletions from evaporation by multiplying the above factors by maximum reservoir surface area (acres).

2. Geothermal and Power Generation Uses:

GE Geothermal

PG Power Generation.

The Department will determine depletions from geothermal and power generation uses on a case-by-case basis.

3. Domestic, Multiple Domestic, and Municipal Uses:

DM Domestic

MD Multiple Domestic

MC Municipal.

The Department will calculate monthly depletions from domestic uses over 35 gallons per minute, exceeding 10 acre feet per year, multi-family domestic, and municipal uses by multiplying the annual volume by the monthly depletion factors set forth below.

HeinOnline -- 1997 vol. I 781 1997

Monthly Depletion Factors for Domestic, Multiple Domestic, and Municipal Uses

| | |

| August | .0675 |
| September | .0495 |
| October | .0360 |
| November | .0135 |
| December | .0135 |

4. Irrigation including Lawn and Garden over 5 Acres:

IR Irrigation

LG Lawn and Garden.

The Department will calculate monthly depletions from irrigation uses (in acre feet) by multiplying the number of acres by the depletion factors set forth below.

Monthly Depletion Factors for Irrigation Uses

| Month | Monthly Depletion Factor (feet per acre) |
|---|---|
| January | 0.0 |
| February | 0.0 |
| March | 0.0 |

| September | 0.1177 |

| | |
|---|---|
| October | 0.0 |
| November | 0.0 |
| December | 0.0 |

The Department will calculate monthly depletions from lawn and garden uses to irrigate an area greater than 5 acres using the method for irrigation set forth above.

5. Stock Uses:

ST Stock.

The Department will calculate monthly depletions from stock ponds using the monthly depletion factors for evaporation listed in Appendix 1, section A(1).

6. Commercial, Industrial, Institutional, Mining, and Other Uses:

CM Commercial

IN Industrial

IS Institutional

MN Mining.

OP Other Purpose

The Department will assign monthly depletions from commercial, industrial, institutional, mining, and other undefined uses as 50% of the annual volume spread in equal increments throughout the period of use. The Department will make any necessary changes to the assigned monthly depletions to reflect actual depletions when the appropriation is complete. The Department and the BLM may discuss the monthly depletions at the annual meeting and the Department will make the final monthly depletion determination.

7. Transbasin Diversions: The Department will calculate monthly depletions for transbasin diversions outside the drainage area of the Missouri River and its tributaries upstream from the point that the Missouri River leaves the boundary of the Upper Missouri National Wild & Scenic River at 100% of the diverted amount.

B. Groundwater.

The Department will subtract all groundwater uses over 35 gallons per minute, exceeding 10 acre feet per year, from the AWS monthly amounts regardless of location or source aquifer. The Department will calculate depletions from groundwater uses based on monthly depletion factors for the type of water use as listed in Appendix 1, section A and spread the depletions in equal increments throughout the year with 1/12th of the annual depletion volume subtracted from each AWS monthly amount.

HeinOnline -- 1997 vol. I 783 1997

C. Stored Water.

The Department will calculate depletions from storage projects by determining the annual depletion based on the monthly depletion factors for the type of use for which the water is stored as listed in Appendix 1, section A and subtract such depletion from the AWS monthly amounts as set forth in the schedule below. For purposes of subtracting the annual depletion for the type of use from the AWS monthly amounts, the Department will apply the following depletion schedule to all reservoirs unless the appropriation issued specifies a different fill regimen.

Monthly Sterage Depletion Schedule

| Month | % of Calculated Annual Depletion |
|---|---|
| November | 7% |
| December | 8% |
| January | 7% |
| February | 7% |
| March | 10% |
| April | 21% |
| May | 38% |
| June | 2% |
| Total | 100% |

The Department will also subtract the monthly depletions from evaporation based on the monthly depletion factors for evaporation listed in Appendix 1, section A(1).

**Section 2. Codification instruction.** [Section 1] is intended to be codified as an integral part of Title 85, chapter 20, and the provisions of Title 85, chapter 20, apply to [section 1].

(7) Regardless of whether the amount of compensation and other benefits payable have been fully determined, the insurer and the claimant may stipulate the proportion of the third-party settlement to be allocated under subrogation. (iv) any other person who claims rights to the use of water from sources in other basins that are hydrologically connected to the sources within the decreed basin and who would be entitled to receive notice under 85-2-232 if the claim or claims were from sources within the decreed basin.

(b) For the purposes of this subsection (1), "good cause shown" means a written statement showing that a person has an ownership interest in water or its use that has been affected by the decree.

HeinOnline -- 1997 vol. I 814 1997

(c) A person does not waive the right to object to a preliminary decree by failing to object to a temporary preliminary decree *issued before [the effective date of this act]*. However, a person may not raise an objection to a matter in a preliminary decree if that person was a party to the matter when the matter was previously litigated and resolved as the result of an objection raised in a temporary preliminary decree~~,~~ unless the objection is allowed for any of the following reasons:

(i) mistake, inadvertence, surprise, or excusable neglect;

(ii) newly discovered evidence that by due diligence could not have been discovered in time to move for a new trial under Rule 59(b), Montana Rules of Civil Procedure;

(iii) fraud, misrepresentation, or other misconduct of an adverse party;

(iv) the judgment is void; or

(v) any other reason justifying relief from the operation of the judgment.

*(d) After [the effective date of this act], a person may not raise an objection or counterobjection to a matter contained in a subsequent decree issued under this part if the matter was contained in a prior decree issued under this part for which there was an objection and counterobjection period unless the objection is allowed for any of the following reasons:*

*(i) mistake, inadvertence, surprise, or excusable neglect;*

*(ii) newly discovered evidence that by due diligence could not have been discovered at the close of the objection period set forth in subsection (2);*

*(iii) fraud, misrepresentation, or other misconduct of an adverse party;*

*(iv) the temporary preliminary decree is void; or*

*(v) any other reason justifying relief from the operation of the prior decree issued under this part. The fact that a prior owner of a water right did not object or counterobject at a prior decree stage may not be a basis for a subsequent owner of the water right to object or counterobject absent a finding that one of the provisions in this subsection (1)(d) applies.*

(2) ~~If a hearing is requested, the request~~ *Objections* must be filed with the water judge within 180 days after entry of the temporary preliminary decree or preliminary decree. The water judge may, for good cause shown, extend this time limit up to two additional 90-day periods if application for an extension is made prior to expiration of the original 180-day period or any extension of it.

*(3) Upon expiration of the time for filing objections under subsection (2), the water judge shall notify each party whose claim received an objection that an objection was filed. The notice must set forth the name of each objector and must allow an additional 60 days for the party whose claim received an objection to file a counterobjection to the claim or claims of the objector. Counterobjections must be limited to those claims that are included within the particular decree issued by the court.*

HeinOnline -- 1997 vol. I 815 1997

~~(3)~~*(4)* ~~The request for a hearing~~ *Objections and counterobjections* must specify the paragraphs and pages containing the findinge and conclusions to which objection is made. The request must state the specific grounds and evidence on which the objections are based.

~~(4)~~*(5) (a)* Upen expiration of the time for filing ~~objections and upon timely receipt of a request for a hearing~~ *counterobjections under subsection (3)*, the water judge shall notify each party named in the temperary preliminary decree or preliminary decree *or that person's successor as documented in the department records* that ~~a hearing has been requested~~ *objections and counterobjections have been filed.* The water judge shall fix a day when all parties who wish to participate in future proceedings ~~must~~ *are required to* appear or file a statement. The water judge shall then set a date for a hearing. The water judge may conduct individual or consolidated hearings. A hearing must be conducted *in the same manner* as for other civil actions. At the order of the water judge, a hearing may be conducted by the water master, who shall prepare a report of the hearing as provided in Rule 53(e), Montana Rules of Civil Procedure.

*(b) In conducting hearings pursuant to this chapter, a water judge may require the parties to participate in settlement conferences or may assign the matter to a mediator. Any settlement reached by the parties is subject to review and approval by a water judge.*

*(6) After the issuance of a temporary preliminary decree or preliminary decree, notice of any motion to amend a statement of claim or a timely filed objection that may adversely affect other water rights must be published for 3 consecutive weeks in two newspapers of general circulation in the basin where the statement of claim or objection was filed. The notice must specify that any response or objection to the proposed amendment must be filed within 45 days of the date of the last notice. The water judge may order any additional notice of the motion as the water judge considers necessary. The costs of the notice required pursuant to this subsection must be borne by the moving party.*

~~(5)~~*(7)* Failure te object under subsection (1) to a compact negotiated and ratified under 85-2-702 or 85-2-703 bars any subsequent cause of action in the water court.

~~(5)~~*(8)* If the court sustains an objection to a compact, it may declare the compact void. The agency of the United States, the tribe, or the United States on behalf of the tribe party to the compact is permitted 6 months after the court's determination to file a statement of claim, as provided in 85-2-224, and the court shall issue a new preliminary decree in accordance with 85-2-231. However, any party to a compact declared void may appeal from that determination in accordance with those procedures applicable to 85-2-235, and the filing of a notice of appeal stays the period for filing a statement of claim as required under this subsection.

~~(7)~~*(9)* Upon potition by a claimant, the water court may grant a motion for dismissal to an ohjection to a temporary preliminary or preliminary decree if the ohjection pertains to an element of a water right that was previously decreed and if dismissal is consistent with commnon-law principles of issue and claim preclusion.

HeinOnline -- 1997 vol. I 816 1997

~~(8)~~*(10)* The provisions of subsection ~~(7)~~ *(9)* do not apply to issues arising after entry of the previous decree, including but not limited to the issues of abandonment, expansion of the water right, and reasonable diligence."

Payment must be made to the court, which shall disburse the money to the entity employing the person ordered to supervise restitution under 46-18-245.

(3) If *at any time* the court finds that, because of circumstances beyond the offender's control, the offender is not ~~and will not be~~ able to pay any restitution ~~during the period of state supervision~~, the court may order the offender to perform community service ~~commensurate with the amount of restitution that would have been imposed~~ *during the time that the offender is unable to pay. The offender must be given a credit against restitution due at the rate of the hours of community service times the state minimum wage in effect at the time that the community service is performed.*"

**Section 3.** Section 46-18-244, MCA, is amended to read:

HeinOnline -- 1997 vol. I 837 1997

"**46-18-244. Type and time of payment — defenses.** (1) The court shall specify the amount, method, and time of *each* payment to the victim and may permit payment in installments. ~~The court may not establish a payment schedule extending beyond the period of state supervision over the offender.~~

(2) In determining the amount, method, and time of *each* payment, the court shall consider the financial resources and future ability of the offender to pay. The court ~~may~~ *shall* provide for payment to a victim ~~up to but not in excess~~ *of the full amount* of the pecuniary loss caused by the offense. The offender may assert any defense that the offender could raise in a civil action for the loss sought to be compensated by the restitution order.

(3) In addition to other methods of payment, the court may order one or more of the following in order to satisfy the offender's restitution obligation:

(a) forfeiture and sale of the offender's assets under the provisions of Title 25, chapter 13, part 7, unless the court finds, after notice and an opportunity for the offender to be heard, that the assets are reasonably necessary for the offender to sustain a living or support the offender's dependents or unless the state determines that the cost of forfeiture and sale would outweigh the amount available to the victim after sale. If the proceeds of sale exceed the amount of restitution ordered and the costs of forfeiture and sale, any remaining amount must be returned to the offender.

(b) return of any property to the victim;

(c) payment of up to one-third of the offender's prison earnings.

(4) With the consent of the victim and in the discretion of the court, an offender may be ordered to make restitution in services *to the victim* in lieu of money or to make restitution to a person designated by the victim, if that person provided services to the victim as a result of the offense.

*(5) After a prosecution is commenced and upon petition of the prosecutor, the court may grant a restraining order or injunction, require a satisfactory bond, or take other action if the court finds that the restraining order or injunction, bond, or other action is necessary to preserve property or assets that could be used to satisfy an anticipated restitution order. A hearing must be held on the petition, and any person with an interest in the property is entitled to be heard.*"

**Section 4.** Section 46-18-246, MCA, is amended to read:

"**46-18-246. Waiver or modification of payment.** An offender may at any time petition the sentencing court to adjust or otherwise waive payment of any part of any ordered restitution. The court shall schedule a hearing and give a victim to whom restitution was ordered notice of the hearing date, place, and time and inform the victim that the victim will have an opportunity to be heard. If the court finds that the circumstances upon which it based the imposition *of restitution*, amount *of the victim's pecuniary loss, or* method~~,~~ or time of payment no longer exist or that it otherwise would be unjust to require payment as imposed, the court may adjust or waive unpaid restitution or modify the time or method of making restitution. The court may extend the restitution schedule~~, but not beyond the period provided for in 46-18-244~~."

**Section 5.** Section 46-18-247, MCA, is amended to read:

**"46-18-247. Default.** (1) If an offender sentenced to make restitution is in default, the sentencing court, upon the motion of the prosecuting attorney or upon its own motion, may issue an order under 46-18-203 requiring the offender to show cause why the offender should not be confined for failure to obey the sentence of the court. The court may order the offender to appear at a time, dato, and place for a hearing or, if the offender fails to appear as ordered, issue a warrant for the offender's arrest. The order or warrant must be accompanied by written notice of the offender's right to a hearing as provided in 46-18-203.

(2) If the court finds that the offender's default was attributahle to the offender's failure to make a good faith effort to obtain the necessary funds for payment of the ordered restitution, the court may take any action provided for in 46-18-203. ~~If confinement is ordered, the court, after entering the order, may reduce the term of confinement and, in accordance with the provisions of 46-18-246, waive satisfaction of the restitution order.~~

(3) An order to pay restitution constitutes a judgment rendered in favor of the state, and following a default in the payment of restitution or any installment of restitution, the sentencing court may order the restitution to be collected hy any method authorized for the enforcement of other judgments."

**Section 6.** Section 46-18-251, MCA, is amended to read:

**"46-18-251. Allocation of fines, costs, restitution, and other charges.** (1) If an offender is subjected to any combination of fines, costs, restitution, charges, or other payments arising out of the same criminal proceeding, money collected from the offender must be allocated as provided in this section.

(2) Except as otherwise provided in this section, if a defendant is subject to payment of restitution and any combination of fines, costs, charges under the provisions of 46-18-236, or other payments, 50% of all money collected from the defendant must be applied to payment of restitution and the balance must be applied to other payments in the following order:

(d) any other payments ordered by the court.

*(3) The money applied under subsection (2) to the payment of restitution must be paid in the following order:*

*(c) to any other government agency that has compensated the victim for the victim's pecuniary loss;*

*(d) to any insurance company that has compensated the victim for the victim's pecuniary loss.*

HeinOnline -- 1997 vol. I 839 1997

~~(3)~~*(4)* If any fines, costs, charges, or other payments remain unpaid after all of the restitution has been paid, any additional money collected must be applied to payment of those fines, costs, charges, or other payments. If any restitution remains unpaid after all of the fines, costs, charges, or other payments have been paid, any additional money collected must be applied toward payment of the restitution."

(5) (a) A health maintenance organization shall provide the same coverage for newborn infants, required by subsection (3)(e), as it provides for enrollees, except that for newborn infants, there may be no waiting or elimination periods. A health maintenance organization may not assess a deductible or reduce benefits applicable to the coverage for newborn infants unless the deductible or reduction in benefits is consistent with the deductible or reduction in benefits applicable to all covered persons.

A health maintenance organization may evidence a subsequent amendment to a schedule of charges in a separate document issued to the enrollee. The charges in the schedule must be established in accordance with actuarial principles for various categories of enrollees, except that charges applicable to an enrollee may not be individually determined based on the status of the enrollee's health.

(7) The commissioner shall, within 60 days, approve a form if the requirements of subsections (1) through (5) are met. A health maintenance organization may not issue a form before the commissioner approves the form. If the commissioner disapproves the filing, the commissioner shall notify the filer. The probation officer shall notify the department of justice when the confiscated driver's license has been returned to the youth. A youth's driver's license may be confiscated under this subsection more than once. The probation officer may, in the probation officer's discretion and with the concurrence of a parent or guardian, return a youth's confiscated driver's license before the termination of the time period for which it had been confiscated. (2) In determining whether restitution is appropriate in a particular case, the following factors may be considered in addition to any other evidence:

(b) ability of the youth to pay;

(c) ability of the parents, legal guardian, or persons contributing to the youth's delinquency or need for supervision to pay;

(5) If the court determines that the youth's parents or guardians are financially able to pay a contribution as provided in subsection (4), the court shall order the youth's parents or guardians to pay an amount based on the uniform child support guidelines adopted by the department of public health and human services pursuant to 40-5-209.

(b) A court-ordered exception from contributions under this section must be in writing and be included in the order. An exception from the immediate income withholding requirement may be granted if the court finds *that* there is:

(i) good cause not to require immediate income withholding; or

**Section 3.** Section 46-18-101, MCA, is amended to read:

**"46-18-101. Correctional policy.** (1) It is the purpose of this section to declare the correctional policy of the state of Montana. Laws for the punishment of crime and for the rehabilitation of the convicted are drawn to implement the policy established by this section.

(2) The correctional policy of the state of Montana is to protect society by preventing crime through punishment and rehabilitation of the convicted. The legislature finds that an individual is responsible for and must be held accountable for the individual's actions, including, whenever possible, the restoration of all pecuniary losses sustained by a victim of the offense. Corrections laws and programs must be implemented to impress upon each individual the responsibility for obeying the law. To achieve this end, it is the policy of the state to ~~assure~~ *ensure* that prosecution of criminal offenses occurs whenever probable cause exists and that punishment of the convicted is certain, timely, and consistent. Furthermore, it is the state's policy that persons convicted of a crime be dealt with in accordance with their individual characteristics, circumstances, needs, and potentialities. Finally, it is the policy of the state to recognize that the interests of crime victims should be considered so that, to the extent possible, victims of crime may be protected from threat of futuro harm by the offender.

(3) (a) Sentences imposed upon those convicted of crime must be based primarily on the following:

(i) the crime committed;

(ii) the prospects of rehabilitation of the offender;

(iii) the circumstances under which the crime was committed;

(v) consideration of alternatives to imprisonment of the offender in ~~the~~ *a* state prison ~~or the women's correctional system~~.

Other offenders must be dealt with by probation, suspended sentence, community corrections, community service, or fine whenever the disposition appoars practicable and not detrimental to the needs of public safety

HeinOnline -- 1997 vol. I 885 1997

and the welfare of the individual. Whenever possible, sentences for offenders must include restitution to the victim, payment of costs as provided in 46-18-232, and payment of costs of court-appointed counsel as provided in 46-8-113.

(4) It is also the policy of the state that alternatives to imprisonment, such as community corrections, should be used whenever appropriate for nonviolent felony offenders in order to provide them opportunities to gain work experience, to learn life skills, to obtain education and training, or to participate in other activities that will reduce recidivism and enable offenders to become productive members of society."

(9) It is an unlawful discriminatory practice to coerce, intimidate, threaten, or interfere with a person in the exercise or enjoyment of or because of the person having exercised or enjoyed or having aided or encouraged any other person in the exercise or enjoyment of a right granted or protected by this section.

(10) The prohibitions of this section against discrimination because of age and familial status do not extend to housing for older persons. "Housing for older persons" means housing:

HeinOnline -- 1997 vol. I 921 1997

(a) provided under any state or federal program specifically designed and operated to assist elderly persons;

(b) intended for, and solely occupied by, persons 62 years of age or older; or

(c) intended and operated for occupancy by at least one person 55 years of age or older per unit in accordance with the provisions of 42 U.S.C. 3607(b)(2)(C) and *(b)*(3) *through (b)(5),* ~~and 24 CFR 100.304,~~ as those ~~sections~~ *provisions* read on ~~October 1, 1989~~ *March 31, 1996.*

(12) For purposes of this section, "familial status" means having a child or children who live or will live with a person. A distinction based on familial status includes one that is based on the age of a child or children who live or will live with a person."

# CHAPTER NO. 195

[SB 69]

AN ACT AUTHORIZING THE CREATION OF LONG-TERM CARE INSURANCE PARTNERSHIPS BETWEEN INDIVIDUALS, PRIVATE HEALTH INSURERS, THE COMMISSIONER OF INSURANCE, AND THE DEPARTMENT OF PUBLIC HEALTH AND HUMAN SERVICES; AUTHORIZING THE DEPARTMENT AND THE COMMISSIONER OF INSURANCE TO ADOPT STANDARDS FOR CERTIFYING CERTAIN LONG-TERM CARE INSURANCE POLICIES; ALLOWING CERTAIN ASSETS OF AN INDIVIDUAL WHO PURCHASES A CERTIFIED LONG-TERM CARE INSURANCE POLICY OR CERTIFICATE TO BE DISREGARDED BY THE DEPARTMENT IN DETERMINING ELIGIBILITY FOR MEDICAID BENEFITS; AMENDING SECTION 53-6-143, MCA; AND PROVIDING CONTINGENT EFFECTIVE DATES.

STATEMENT OF INTENT

A statement of intent is required for this bill because [sections 4 and 5] grant rulemaking authority to the commissioner of insurance and the department of public health and human services. [Section 4] authorizes the commissioner and the department to adopt rules regarding requirements for certification of long-term care insurance policies and certificates for the purposes of qualification for medical assistance benefits. [Section 5] requires the department to adopt rules necessary for the administration of long-term care insurance partnerships, including eligibility requirements for disregard of resources and amounts of resources to be disregarded for the purposes of qualification for medical assistance benefits. In adopting rules pursuant to these sections, the commissioner and the department shall take into consideration the goal of reducing expenditures for long-term care by the Montana medicaid program.

HeinOnline -- 1997 vol. I 922 1997

*Be it enacted by the Legislature of the State of Montana:*

**Section 1. Definitions.** As used in [sections 1 through 5], unless the context indicates otherwise, the following definitions apply:

(1) "Certificate" means a certificate as defined in 33-22-1107.

(2) "Commissioner" means the commissioner of insurance provided for in 2-15-1903.

(3) "Department" means the department of public health and human services provided for in 2-15-2201.

(4) "Dollar-for-dollar model" means a program in which the amount of resources that is disregarded in determining medical assistance eligibility for an individual is increased by $1 for each dollar paid by an insurer to an insured under the insured's long-term care insurance policy or certificate.

(5) "Long-term care insurance" means an insurance policy or certificato that provides coverage for medically necessary services in a long-term care facility, as defined in 50-5-101, or in the insured's home.

(6) "Long-term care insurance partnership" or "partnership" means a program of collaboration between the commissioner, the department, insurers, and their insureds to create an incentive, through the issuance of insurance policies or certificates certified by the commissioner and the department, for individuals to purchase long-term care insurance.

(7) "Policy" means a policy as defined in 33-22-1107.

**Section 2. Purpose.** The purpose of [sections 1 through 5] and the long-term care insurance partnerships authorized by [sections 1 through 5] is to encourage individuals to purchase long-term care insurance policies or certificates that will provide for their potential long-term care needs, thereby reducing the amount of money spent by the state of Montana for long-term care under the Montana medicaid program. The purpose of [sections 1 through 5] is also to provide an incentive for the purchase of the policies or certificates by providing individuals some protection from the requirement that they spend down their resources in order to qualify for medical assistance benefits in the form of payment for long-term care.

**Section 3. Long-term care insurance partnerships authorized.** (1) The commissioner and the department may in their discretion create long-term care insurance partnerships if federal law permits those partnerships. If created, the partnerships must be consistent with the requirements of Title XIX of the Social Security Act, 42 U.S.C. 1396, et seq.

(2) The commissioner and the department may in their discretion collaborate with private insurers to create long-term care insurance partnerships that will allow individuals who have resources in excess of the resource limit for receipt of medical assistance under the Montana medicaid program to receive medical assistance benefits if those individuals are eligible for or require the level of care provided by a long-term care facility and meet the other program requirements to qualify for those benefits.

HeinOnline -- 1997 vol. I 923 1997

(3) Under partnerships created pursuant to this section, individuals may qualify for special treatment of their resources if they purchase a long-term care insurance policy or certificate certified by the commissioner and the department as provided in [section 4] prior to becoming eligible for medical assistance benefits.

(4) The long-term care insurance partnerships may in the department's discretion be based on a dollar-for-dollar model or any other model that is cost-neutral.

**Section 4. Rulemaking and certification of policies by commissioner and department.** (1) The commissioner and the department may by rule adopt requirements for certification of long-term care insurance policies and certificates. These requirements may include but are not limited to:

(a) minimum levels and durations of benefits;

(b) mandatory inflation protection;

(c) mandatory home and community care coverage;

(d) case management; and

(e) procedures for the insured to appeal a denial of benefits.

(2) The commissioner and the department shall review long-term care insurance policies and certificates to determine whether policies and certificates meet the requirements for certification pursuant to this section.

**Section 5. Department to make rules.** The department shall adopt rules necessary for the administration of the partnerships, including but not limited to rules concerning:

(1) the populations and age groups eligible to have resources disregarded for the purposes of qualification for medical assistance benefits under the Montana medicaid program;

(2) the level of care that an individual requires in order to have resources disregarded in determining eligibility for medical assistance benefits;

(3) the amount and type of resources of an individual that will be disregarded in determining eligibility for medical assistance benefits;

(4) requirements for the disregard of resources of an individual in determining eligibility for medical assistance benefits; and

(5) the exemption of protected resources from a lien provided in 53-6-171 through 53-6-189 for the recovery of medical assistance benefits paid by the state.

**Section 6.** Section 53-6-143, MCA, is amended to read:

**"53-6-143. Medical assistance liens and recoveries.** (1) Except as provided in this section, the department may not impose a lien upon the property of an applicant for or recipient of medical assistance.

(2) A lien for recovery of medical assistance paid or to be paid under this chapter may be imposed against the real or personal property of a medicaid applicant or recipient prior to the applicant's or recipient's death only:

(a) pursuant to a judgment of a court for recovery of medical assistance paid on behalf of the recipient;

(b) on a third-party recovery as provided in 53-2-612; ~~or~~

(c) as provided in 53-6-171 through 53-6-188; *or*

*(d) to the extent that the recipient has received medical assistance based upon resources not disregarded pursuant to [sections 1 through 5].*

(3) The department may recover medical assistance correctly paid on behalf of a recipient only as provided in 53-2-612, 53-6-167 through 53-6-169, or 53-6-171 through 53-6-188 or as provided in a written agreement between the department and the recipient or the recipient's representative pursuant to 42 U.S.C. 1382b(b).

(4) Except as otherwise specifically provided by 53-6-144, 53-6-165 through 53-6-169, 53-6-171 through 53-6-189, and this section, the department may pursue recovery under any section or combination of sections as may be applicable in a particular case. However, the department may not recover pursuant to 53-6-167 through 53-6-169 or 53-6-171 through 53-6-188 more than the total amount of recoverable medical assistance paid on behalf of a recipient, plus any applicable costs, interest, or other charges specifically allowed by law. The fact that the department has or may have a lien on particular property does not preclude the department from pursuing recovery under another section against other assets of the recipient or assets of another person as provided in 53-6-144, 53-6-165 through 53-6-169, 53-6-171 through 53-6-189, and this section."

**Section 7. Codification instruction.** [Sections 1 through 5] are intended to be codified as an integral part of Title 53, chapter 6, and the provisions of Title 53, chapter 6, apply to [sections 1 through 5].

**Section 8. Contingent effective dates.** (1) [Sections 4, 5, and 7 and this section] are effective on the effective date of the repeal of 42 U.S.C. 1396p(b)(1)(A) and (b)(1)(B) or of the amendment of that section in a manner prohibiting adjustment or recovery of medical assistance paid to individuals described in that section.

(2) [Sections 1 through 3 and 6] are effective 6 months after [the effective date of sections 4 and 5].

**Section 3.** Section 82-4-226, MCA, is amended to read:

"**82-4-226. Prospecting permit.** (1) Except as provided in subsection (8), prospecting by any person on land not included in a valid strip-mining or underground-mining permit is unlawful without possessing a valid prospecting permit issued by the department as provided in this section. A prospecting permit may not be issued until the person submits an application, the application is examined, amended if necessary, and approved by the department, and an adequate reclamation performance bond is posted, all of which prerequisites must be done in conformity with the requirements of this part.

(2) An application for a prospecting permit must be made in writing, notarized, and submitted to the department in duplicate upon forms prepared and furnished by it. The application must include among other things a prospecting map and a prospecting reclamation plan of substantially the same character as required for a surface-mining or underground-mining map and reclamation plan under this part. The department shall determine by rules the precise nature of the required prospecting map and reclamation plan. Any applicant who intends to prospect by means of core drilling shall specify the location and number of holes to be drilled, methods to be used in sealing aquifers, and other information that may be required by the department. The applicant shall state what types of prospecting and excavating techniques will be employed on the affected land. The application must also include any other or further information that the department may require.

(3) The application must be accompanied by a fee of $100. This fee must be used as a credit toward the strip-mining or underground-mining permit fee provided by this part if the area covered by the prospecting permit becomes covered by a valid surface-mining or underground-mining permit obtained before or at the time the prospecting permit expires.

(4) Before the department gives final approval to the prospecting permit application, the applicant shall file with the department a reclamation and revegetation bond in a form and in an amount as determined in the same manner for strip-mining or underground-mining reclamation and revegetation bonds under this part.

(5) In the event that the holder of a prospecting permit desires to strip mine or underground mine the area covered by the prospecting permit and has fulfilled all the requirements for a strip-mining or underground-mining permit, the department may permit the postponement of the reclamation of the acreage prospected if that acreage is incorporated into the complete reclamation plan submitted with the application for a strip-mining or underground-mining permit. Any land actually affected by prospecting or excavating under a prospecting permit and not covered by the strip-mining or underground-mining reclamation plan must be promptly reclaimed.

(6) The prospecting permit is valid for 1 year and is subject to renewal, suspension, and revocation in the same manner as strip-mining or underground-mining permits under this part.

HeinOnline -- 1997 vol. I 931 1997

(7) The holder of the prospecting permit shall file with the department the same progress reports, maps, and revegetation progress reports as are required of strip-mining or underground-mining operators under this part.

(8) Prospecting that is not conducted in an area designated unsuitable for coal mining pursuant to 82-4-227 or 82-4-228, ~~and~~ that is not conducted for the purpose of determining the location, quality, or quantity of a ~~natural~~ mineral deposit, *and that does not remove more than 250 tons of coal* is not subject to subsections (1) through (7). In addition, prospecting that is conducted to determine the location, quality, or quantity of a ~~natural~~ mineral deposit *outside an area designated unsuitable, that does not remove more than 250 tons of coal,* and that does not substantially disturb the natural land surface is not subject to subsections (1) through (7). However, a person who conducts prospecting described in this subsection shall file with the department a notice of intent to prospect that contains the information required by the department before commencing prospecting operations. If this prospecting substantially disturbs the natural land surface, it must be conducted in accordance with the performance standards of the board's rules regulating the conduct and reclamation of prospecting operations that remove coal. The department may inspect these prospecting and reclamation operations at any reasonable time."

**Section 4.** Section 82-4-233, MCA, is amended to read:

"82-4-233. **Planting of vegetation following grading of disturbed area.** (1) ~~After~~ *Except as provided in subsection (4), after* the operation has been backfilled, graded, topsoiled, and approved by the department, the operator shall prepare the soil and plant ~~such~~ *the* legumes, grasses, shrubs, and trees ~~as~~ *that* are necessary to establish on the regraded areas and all other lands affected a diverse, effective, and permanent vegetative cover of the same seasonal variety native to the area of land to be affected and capable of self-regeneration and plant succession at least equal in extent of cover to the natural vegetation of the area except that introduced species may be used in the revegetation process where desirable and necessary to achieve the approved postmining land use plan. The vegetative cover must be capable of:

(a) feeding and withstanding grazing pressure from a quantity and mixture of wildlife and livestock at least comparable to that which the land could have sustained prior to the operation;

(b) regenerating under the natural conditions prevailing at the site, including occasional drought, heavy snowfalls, and strong winds; and

(c) preventing soil erosion to the extent achieved prior to the operation.

(2) The seed or plant mixtures, quantities, method of planting, type and amount of lime or fertilizer, mulching, irrigation, fencing, and any other measures necessary to provide a suitable permanent diverse vegetative cover ~~shall~~ *must* be defined by rules of the board.

(3) All underground shafts, tunnels, or other excavations are excluded from the provisions of subsection (1) ~~of this section~~.

*(4) For land that was mined, disturbed, or redisturbed after May 2, 1978, and that was seeded prior to January 1, 1984, using a seed mix that was approved by the department pursuant to subsection (2) and on which the reclaimed vegetation*

HeinOnline -- 1997 vol. I 932 1997

*otherwise meets the requirements of subsection (1) and applicable state and federal seed and vegetation laws and rules, introduced species are considered desirable and necessary to achieve the postmining land use and may compose a major or dominant component of the reclaimed vegetation."*

**Section 5.** Section 82-4-235, MCA, is amended to read:

"**82-4-235. (Temporary) Inspection of vegetation — final bond release.** Inspection and evaluation for permanent diverse vegetative cover ~~shall~~ *must* be made as soon as it is possible to determine if a satisfactory stand has been established. If the department determines that a satisfactory permanent diverse vegetative cover has been established, it shall release the remaining bond held on the area reclaimed after public notice and an opportunity for hearing as provided in 82-4-232(6). ~~In no event shall such~~ *The* remaining bond *may not* be released prior to a period of 10 years after the last year of augmented seeding, fertilizing, irrigation, or other work required under this part for those operations or portions of operations that were seeded after February 2, 1978, or prior to a period of 5 years after initial planting for all exploration activities and all other operations.

**82-4-235. (Effective on occurrence of contingency) Inspection of vegetation — final bond release.** (1) Inspection and evaluation for permanent diverse vegetative cover must be made as soon as possible following an application for final bond release to determine if a satisfactory stand has been established. If the department determines that a satisfactory permanent diverse vegetative cover has been established, it shall release the remaining bond held on the area reclaimed after public notice and an opportunity for hearing as provided in 82-4-232(6). ~~For land that was seeded using a seed mix that included a substantial component of introduced species approved by the department pursuant to 82-4-233(2) and on which reclaimed vegetation otherwise meets the requirements of 82-4-233(1), approval of reclaimed vegetation for release of bond may not be withheld on the basis that introduced species compose a major or dominant component. Except as provided in subsection (2)(b), the~~ *The* remaining bond may not be released prior to a period of 10 years after the last year of augmented seeding, fertilizing, irrigation, or other work required under this part for those operations or portions of operations that were seeded after May 2, 1978, or prior to a period of 5 years after initial planting for all exploration activities and all other operations.

(2) (a) Notwithstanding the provision in subsection (1), on land from which coal was removed prior to May 3, 1978, and on land from which coal was not removed and that was not used, disturbed, or redisturbed in connection with this part after May 2, 1978, the department may approve for release a bond on an area of reclaimed vegetation that meets the following criteria:

(i) it was seeded using a seed mixture that was approved by the department under the criteria established pursuant to 82-4-233 and that included introduced species; and

(ii) at least one of the following conditions exists:

(A) the standards of 82-4-233(1) are otherwise achieved;

(B) the operator has demonstrated substantial usefulness of the reclaimed vegetation for grazing of livestock;

HeinOnline -- 1997 vol. I 933 1997

(C) the operator demonstrates that the reclaimed vegetation has substantial value as a habitat component for wildlife present in the area; or

*Be it enacted by the Legislature of the State of Montana:*

**Section 1. Scope — purpose.** The provisions of [sections 1 through 8] apply to all health benefit plans offered to persons who receive health care services in this state. The purpose of [sections 1 through 8] is to ensure that obstetricians and gynecologists may be participating primary care physicians under health benefit plans offered to patients who receive health care services in this state and that persons covered by health benefit plans have direct access to the services of a participating obstetrician or gynecologist of their choice.

purposes of [sections 1 through 8], a health benefit plan located or domiciled outside of the state of Montana is subject to the provisions of [sections 1 through 8] if it receives, processes, adjudicates, pays, or denies claims for health care services submitted by or on behalf of covered persons who reside or who receive health care services in the state of Montana.

(3) "Health carrier" means a disability insurer, health care insurer, health maintenance organization, accident and sickness insurer, fraternal benefit society, nonprofit hospital service corporation, health service corporation, health care service plan, preferred provider organization or arrangement, multiple employer welfare arrangement, or any other person, firm, corporation, joint venture, or similar business entity.

**Section 3. Obstetricians or gynecologists as primary care physicians.** (1) Each health benefit plan that provides coverage for primary care or obstetrical or gynecological care must allow obstetricians and gynecologists to participate as primary care physicians. The health carrier that provides the health benefit plan shall contract with a sufficient number of obstetricians and gynecologists to ensure that covered persons have access to the options under this section without unreasonable delay if there are obstetricians or gynecologists practicing in the geographic service areas in which the plan operates who are willing to participate in the plan. An obstetrician or gynecologist may not be required to accept primary care physician status if the obstetrician or gynecologist does not wish to be designated as a primary care physician. A health benefit plan must use the same criteria with regard to credentials and other selection criteria for a participating obstetrician or gynecologist as are applied by the health benefit plan with respect to other physicians who are participating in the health benefit plan. This self-referral must be allowed without prior authorization or precertification from the health benefit plan or covered person's primary care physician, but the health benefit plan may require the covered person to notify the plan prior to self-referral.

(2) The services covered by this section may be limited to those services defined by the most recent published recommendations of the American college of obstetricians and gynecologists. The self-referral permitted by this section may be limited to one participating obstetrician or gynecologist for obstetrical care and one participating obstetrician or gynecologist for gynecological care of the covered person's choice annually.

(3) The participating obstetrician or gynecologist and the covered person shall comply with the health benefit plan's coordination and referral policies. The health benefit plan may require the participating obstetrician or gynecologist to whom the covered person self-refers to discuss with the covered person's primary care physician any services or treatment the participating obstetrician or gynecologist recommends for the covered person.

(4) Self-referral under this section may not affect the covered person's coverage under the health benefit plan. It is the intent of this section that a covered person must at all times have direct access to the covered services of the participating obstetrician or gynecologist of the covered person's choice under any health benefit plan.

(1) recommend a correction plan that must be followed by the health carrier;

(2) institute corrective action that must be followed by the health carrier;

HeinOnline -- 1997 vol. I 939 1997

(3) suspend or revoke the certificate of authority or deny the health carrier's application for a certificate of authority; or

*Be it enacted by the Legislature of the State of Montana:*

**Section 1.** Section 20-9-311, MCA, is amended to read:

**"20-9-311. Calculation of average number belonging (ANB).** (1) Average number belonging (ANB) must be computed as follows:

(a) compute an average enrollment by adding a count of regularly enrolled full-time pupils who were enrolled as of the first Monday in October of the prior school fiscal year to a count of regularly enrolled pupils on February 1 of the prior school fiscal year, or the nearest school day if those dates do not fall on a school day, and divide the sum by two; and

(b) multiply the average enrollment calculated in subsection (1)(a) by the sum of the pupil-instruction and the approved pupil-instruction-related days for the current school fiscal year and divide by 180.

(2) For the purpose of calculating ANB under subsection (1), up to 7 approved pupil-instruction-related days may be included in the calculation.

(3) When a school district has approval to operate less than 180 school days under 20-9-804, the total ANB must be calculated in accordance with the provisions of 20-9-805.

(4) Enrollment for a part of a morning session or a part of an afternoon session by a pupil must be counted as enrollment for one-half day.

(5) In calculating the ANB for pupils enrolled in a program established under 20-7-117(1), enrollment at a regular session of the program for at least 2 hours of either a morning or an afternoon session must be counted as one-half pupil for ANB purposes. If a variance has been granted as provided in 20-1-302, ANB must be computed in a manner prescribed by the superintendent of public instruction, but the ANB for a kindergarten student may not exceed one-half for each kindergarten pupil.

(6) When any pupil has been absent, with or without excuse, for more than 10 consecutive school days, the pupil may not be included in the enrollment count used in the calculation of the ANB unless the pupil resumes attendance prior to the day of the enrollment count.

(7) The enrollment of prekindergarten pupils, as provided in 20-7-117, may not be included in the ANB calculations.

HeinOnline -- 1997 vol. I 984 1997

(8) The average number belonging of the regularly enrolled, full-time pupils for the public schools of a district must be based on the aggregate of all the regularly enrolled, full-time pupils attending the schools of the district, except that when:

(a) (i) a school of the district is located more than 20 miles beyond the incorporated limits of a city or town located in the district and at least 20 miles from any other school of the district, the number of regularly enrolled, full-time pupils of the school must be calculated separately for ANB purposes and the district must receive a basic entitlement for the school calculated separately from the other schools of the district;

(ii) a school of the district is located more than 20 miles from any other school of the district and no incorporated territory is involved in the district, the number of regularly enrolled, full-time pupils of the school must be calculated separately for ANB purposes and the district must receive a basic entitlement for the school calculated separately from the other schools of the district; ~~or~~

(iii) the superintendent of public instruction approves an application not to aggregate when conditions exist affecting transportation, such as poor roads, mountains, rivers, or other obstacles to travel, or when any other condition exists that would result in an unusual hardship to the pupils of the school if they were transported to another school, the number of regularly enrolled, full-time pupils of the school must be calculated separately for ANB purposes and the district must receive a basic entitlement for the school calculated separately from the other schools of the district; *or*

*(iv) two or more elementary districts consolidate or annex under the provisions of 20-6-203, 20-6-205, or 20-6-208; two or more high school districts consolidate or annex under the provisions of 20-6-315 or 20-6-317; or two or more K-12 districts consolidate or annex under Title 20, chapter 6, part 4, the ANB and the basic entitlements of the component districts must be calculated separately for a period of 3 years following the consolidation or annexation;*

(b) a junior high school has been approved and accredited as a junior high school, all of the regularly enrolled, full-time pupils of the junior high school must be considered as high school district pupils for ANB purposes;

(c) a middle school has been approved and accredited, all pupils below the 7th grade must be considered elementary school pupils for ANB purposes and the 7th and 8th grade pupils must be considered high school pupils for ANB purposes; or

(d) a school has not been accredited by the board of public education, the regularly enrolled, full-time pupils attending the nonaccredited school are not eligible for average number belonging calculation purposes, nor will an average number belonging for the nonaccredited school be used in determining the BASE funding program for the district.

(9) When 11th or 12th grade students are regularly enrolled on a part-time basis, high schools may calculate the ANB to include an "equivalent ANB" for those students. The method for calculating an equivalent ANB must be determined in a manner prescribed by the superintendent of public instruction.

HeinOnline -- 1997 vol. I 985 1997

(10) For average daily attendance reporting purposes, districts shall provide the superintendent of public instruction with annual reports of school attendance for regularly enrolled students and special education students, using a format determined by the superintendent."

**Section 2. Effective date — retroactive applicability.** [This act] is effective July 1, 1997, and applies retroactively, within the meaning of 1-2-109, to a district that is consolidated or annexed on or after January 1, 1997.

*Be it enacted by the Legislature of the State of Montana:*

**Section 1.** Section 61-8-312, MCA, is amended to read:

**"61-8-312. Special speed limitations on trucks, truck tractors, motor-driven cycles, and vehicles towing housetrailers.** (1) A person may not operate a truck or truck tractor, the gross weight of which exceeds 8,000 pounds, at a speed greater than 65 miles ~~per~~ *an* hour on those completed sections of interstate and four-lane divided highways and 60 miles ~~per~~ *an* hour on those completed sections of primary and secondary highways. However, the truck nighttime speed limit may not exceed that of automobiles, as stated in 61-8-303.

(2) A person may not operate a vehicle subject to a term permit under 61-10-124~~(3)(d)~~*(2)(d)* or a truck-trailer-trailer or truck tractor-semitrailer-trailer-trailer combination of vehicles subject to special permits under 61-10-124~~(6)~~*(4)* at a speed greater than 55 miles ~~per~~ *an* hour.

(4) A person may not operate a vehicle that is towing a housetrailer at a speed greater than a maximum of 50 miles ~~per~~ *an* hour."

**Section 2.** Section 61-10-104, MCA, is amended to read:

**"61-10-104. Length — definitions.** (1) A single truck, bus, or any self-propelled vehicle, unladen or with load, may not have an overall length, inclusive of front and rear bumpers, in excess of 55 feet.

(2) (a) When used in a truck tractor-semitrailer combination, the semitrailer may not exceed 53 feet in length, excluding those portions not designed to carry a load, except as provided by 61-10-124. When used in a truck tractor-semitrailer-trailer or a truck tractor-semitrailer-semitrailer combination, the semitrailer and trailer or the two semitrailers may not exceed 28 1/2 feet each in length, excluding those portions not designed to carry a load,

HeinOnline -- 1997 vol. I 1044 1997

except as provided by 61-10-124. Truck tractor-semitrailer, truck tractor-semitrailer-trailer, and truck tractor-semitrailer-semitrailer combinations are not subject to a combination length limit.

(b) A stinger-steered automobile or boat transporter may not exceed 75 feet in length plus a maximum 3 feet of front overhang and 4 feet of rear overhang, except as provided by 61-10-124. "Stinger-steered automobile or boat transporter" means a truck tractor-semitrailer combination that has a fifth wheel on a drop frame located behind and below the rear axle of the truck tractor and that is designed and used for the transportation of vehicles or assembled boats or boat hulls.

(c) All other combinations of vehicles may not have a combination length in excess of 75 feet, except as provided by 61-10-124. If the combination consists of more than two units, the rear units of the combination must be equipped with breakaway brakes.

(3) A motor vehicle may not tow more than one motor vehicle, and a motor vehicle may not draw more than three motor vehicles attached to it by the triple saddle-mount method (that is, by mounting the front wheels of one vehicle on the bed of another, leaving only the rear wheels of the vehicle in contact with the roadway), nor may this combination have a combination length in excess of 75 feet.

(4) A passenger vehicle or truck of less than 2,000 pounds "manufacturers' rated capacity" may not tow more than one trailer or semitrailer, nor may this combination have a length in excess of 65 feet.

(5) (a) The length of a vehicle combination consisting of a truck or truck-tractor and one pole trailer or semitrailer hauling raw logs may not exceed 75 feet in overall length. As used in this subsection *(5)*(a), the term "length" means the total length of the vehicle combination beginning at the front of the front bumper of the truck or truck-tractor and extending to the most distant end of the logs being hauled. A term permit for an overlength vehicle combination, as provided in 61-10-124~~(3)~~*(2)*, does not apply to the vehicle combination described in this subsection *(5)*(a). A vehicle combination exceeding 75 feet must have a trip permit.

(b) The maximum overhang of any log may not exceed 15 feet, except by *a* special, single-trip permit. Overhang is measured from the center of the rear-most axle to the most distant end of the logs being hauled.

(c) The provisions in subsections (5)(a) and (5)(b) do not apply to a vehicle combination hauling utility poles.

(6) As used in this chapter, the following definitions apply:

(a) "Combination length" means the total length of a combination of vehicles, such as a truck tractor-semitrailer-trailer combination, measured from the front bumper of the motor vehicle to the back bumper or rear extremity of the last trailer, including the connection tongues.

(b) "Combined trailer length" means the total length of a combination of trailers measured from the front of the first trailer to the back of the last trailer, including the connection tongues and loads.

HeinOnline -- 1997 vol. I 1045 1997

(c) "Lengtb", except as provided in subsection (5)(a), means the total longitudinal dimension of a single vehicle, a trailer, or a semitrailer. The length of a trailer or semitrailer is measured from tbe front of the cargo-carrying unit to its rear, exclusive of safety or energy efficiency devices, air-conditioning units, air compressors, flexible fender extensions, splash and spray suppressant devices, bolsters, mechanical fastening devices, and hydraulic lift gates.

(d) "Rocky Mountain douhle" means a combination of vehicles that includes a truck tractor pulling a long semitrailer and a shorter trailer."

**Section 3.** Section 61-10-107, MCA, is amended to read:

**"61-10-107. Maximum gross weight ~~—when permit required~~.** (1) An axle may not carry a load in excess of 20,000 pounds, and no two consecutive axles more than 40 inches or less than 96 inches apart may carry a load in excess of 34,000 pounds. An axle load is the total load transmitted to the road hy all wheels wliose centers are included between two parallel transverse vertical planes 40 inches apart, extending across the full width of the vehicle. For purposes of this section, axles 40 inches or less apart are considered to be a single axle. A vehicle or combination may not have more than nine axles. The maximum gross weight allowed on a vehicle, group of axles, or combination of vebicles must be determined by the formula:

$$W = 500((LN/(N - 1)) + 12N + 36)$$

in which W equals gross weight, L equals wheel hase in feet, and N equals number of axles, except that two consecutive sets of tandem axles may carry a gross load of 34,000 pounds each if tbe overall distance between the first and last axles of the consecutive sets of tandem axles is 36 feet or more.

(2) (a) Notwithstanding a vehicle's conformance with the requirements of subsection (1), except for the steering axle, all axles weighing over 11,000 pounds must have at least four tires or have wide-base tires. The maximum load on an axle, other than a steering axle, equipped with wide-base tires is limited to 500 pounds ~~per~~ *for each* inch of tire width.

(b) The provisions of subsection (2)(a) do not apply to passenger buses.

(c) For the purposes of this section, wide-base tires are tires that are 14 or more inches in nominal width. The maximum tire weight limit is computed for wide-base tires based ou the number of inches shown on the tire marking, or if the tire marking is shown by metric size, the tire weight limit is computed by conversion of the metric size.

~~(3) If the gross weight of a vehicle or combination exceeds 80,000 pounds, the vehicle or combination must have a special permit. The permit may be issued in the discretion of the department of transportation based on evaluation of safety, highway capacity, and economics of highway maintenance and vehicle operation. The fee is $20 per trip permit or $100 per term permit. A term permit may not be issued for a period of time greater than the period for which the GVW license is valid. Owners of vehicles licensed in other jurisdictions may, at the discretion of the department, purchase permits to expire with their registration. Permits may specify and permits issued under 61-10-124(6) must specify highway routing.~~

~~(4) A special permit issued under subsection (3) for the transportation of agricultural products by farm vehicles from a harvesting combine or other~~

~~harvesting machinery to the point of first unloading is for the full term of the harvest season of the agricultural product transported.~~

~~(5)~~*(3)* This section does not apply to highways that are a part of the national system of interstate and defense highways (as referred to in 23 U.S.C. 127) when application of this section would prevent this state from receiving federal funds for highway purposes."

**Section 4.** Section 61-10-109, MCA, is amended to read:

**"61-10-109. Operation without special permits prohibited.** The operation of vehicles or combinations of vehicles having dimensions or weights in excess of the maximum limits specified in 61-10-101 through 61-10-104 and 61-10-106 threugh 61-10-108 is permitted only if authorized by special permit issued *under 61-10-121 through 61-10-125* by the department of transportation or its agents or the highway patrol."

**Section 5.** Section 61-10-124, MCA, is amended to read:

**"61-10-124. Special permits — fees — ~~cranes.~~** ~~(1) As used in this section, "crane" means a self-propelled, single-unit vehicle consisting of not more than four axles and used for raising, shifting, and lowering heavy weights by means of a projecting swinging arm.~~

~~(2)~~*(1)* Except as provided in subsections ~~(3)(b)~~ *(2)(b)*, ~~(3)(d)~~ *(2)(d)*, and ~~(6)~~ *(4)*, in addition to the regular registration and gross vehicle weight fees, a fee of $10 for each trip permit and a fee of $75 for each term permit issued for size ~~and weight~~ in excess of that specified in 61-10-101 through 61-10-104 ~~and 61-10-106 through 61-10-110~~ must be paid for all movements under special permits on the public highways under the jurisdiction of the department of transportation.

~~(3)~~*(2)* (a) Except as provided in subsections ~~(3)(b)~~ *(2)(b)*, ~~(3)(d)~~ *(2)(d)*, ~~(6)~~ *(4)*, and ~~(7)~~ *(5)*, term or blanket permits may not be issued for an overwidth vehicle, combination of vehicles, load, or other thing in excess of 15 feet; an overlength vehicle, combination of vehicles, load, object, or other thing in excess of 95 feet; or an overheight vehicle, combination of vehicles, load, or other thing in excess of 14 feet~~,~~ or of a limit determined by the department. A vehicle, combination of vehicles, load, or other thing in excess of these dimensions is limited to trip permits. A Rocky Mountain double may not exceed 81 feet in combined trailer length, and the long semitrailer cargo unit of the combination may not exceed 48 feet in length. A Rocky Mountain double is not subject to a combination length limit. Special permits for vehicle combinations of more than two trailers or more than two units designed for or used to carry a lead are net permitted except as previded in subsections ~~(6)~~ *(4)* and ~~(7)~~ *(5)*. Special permits for vehicle combinations may specify and special permits under subsections ~~(6)~~ *(4)* and ~~(7)~~ *(5)* must specify highway reuting and otherwise limit or prescribe conditions of operation of the vehicle or combination, including but not limited to required equipment, speed, stability, operational procedures, and insurance.

(b) A term permit may be issued to a dealer in implements of husbandry and self-propelled machinery for an overwidth or overlength vehicle referred to in subsection ~~(3)(a)~~ *(2)(a)*. The fee for this permit is $75. This permit expires on December 31 of each year, witb no grace period.

HeinOnline -- 1997 vol. I 1047 1997

(c) With payment of the appropriate gross weight fees required by 61-10-201 and with payment of the fee prescribed in subsection ~~(2)~~ *(1)*, allowable gross weight of a five-axle combination logging vehicle is 80,000 pounds.

(d) A term permit may be issued for any combination of vehicles that exceeds 95 feet in length but does not exceed 100 feet in combination length, except a truck-trailer-trailer or a truck tractor-semitrailer-trailer-trailer combination, for travel only on highways that are part of the federal-aid interstate system, as defined in 60-1-103, or on other highways within a 2-mile radius of an interchange on the interstate system in order to obtain necessary services or to load or unload at a terminal. When a terminal is beyond a 2-mile radius, tbe department may authorize travel between tbe terminal and the interchange. The fee for this permit is $125.

(e) A term permit may be issued for a truck tractor-semitrailer combination when the semitrailer exceeds 53 feet in length but does not exceed 57 feet in length.

~~(4)~~*(3)* Except as provided in subsection ~~(3)(b)~~ *(2)(b)*, a permit may not be issued for a period of time greater than the period for which the GVW license is valid as provided in this title, including grace periods allowed by this title. Owners of vehicles licensed in other jurisdictions may, at the discretion of the department of transportation, purchase permits to expire with their registration. A license required by the state governs the issuance of a special permit.

~~(5) The owner or operator of a crane with a gross vehicle weight of less than 80,000 pounds may purchase a 30-day special permit for excess weight if the crane has a current special mobile equipment identification plate and if the department of transportation has approved the configuration of the crane through a weight analysis completed within the same calendar year. The permit is not transferable, and the fee for the permit is $200.~~

~~(6)~~*(4)* The department may issue special permits to the operating company for a truck-trailer-trailer or truck tractor-semitrailer-trailer-trailer combination of vehicles under the following conditions:

(a) the combination may be operated only on highways that are part of the federal-aid interstate system, as defined in 60-1-103, and within a 2-mile radius of an interchange on the interstate system on other highways only in order to obtain necessary services or to load or unload at a terminal. When a terminal is beyond a 2-mile radius, the department may authorize travel between the terminal and tbe interchange.

(b) a combination of vehicles powered by a cab-over (tilt cab) type truck-tractor or a truck may not exceed overall length of 105 feet, inclusive of front and rear bumpers and overhang;

(c) a combination of vehicles powered by a conventional truck-tractor may not exceed overall length of 110 feet, inclusive of front and rear bumpers and overhang;

(d) an individual carge unit of the combination may not exceed 28 1/2 feet in length and 102 inches in width;

HeinOnline -- 1997 vol. I 1048 1997

(e) gross weight fees under 61-10-203 must be paid on the truck or truck tractor for the declared registered gross weight of the special vehicle combination, but not to exceed the formula in 61-10-107;

(f) the combination must have ~~a restricted route permit under 61-10-107(3) and~~ a special overlength permit issued at a fee of $200 for a term permit or $20 for each trip permit;

(g) travel of the combination may be restricted to specific routes, hours of operation, specific days, or seasonal periods; and

(h) the department may enforce any other restrictions determined by the department to be necessary. The permit is not transferable, and the fee for the permit is $200.

~~(7)~~*(5)* The department of transportation may issue special permits under subsection ~~(6)~~ *(4)* for vehicle combinations that consist of a truck-trailer-trailer if:

(a) the vehicle combination's overall length, inclusive of front and rear bumpers, is not more than 95 feet; and

(b) the person, firm, or corporation applying for the permit:

(2) The department of transportation by order, or a local road authority by ordinance or resolution, may prohibit the operation of or impose restrictions on the weight and speed of a vehicle traveling on a public highway under its respective jurisdiction and for which it is responsible for maintenance whenever the highway will be seriously damaged or destroyed by deterioration, rain, snow, or other climatic conditions, unless the use of vehicles on the highway is prohibited or the permissible vehicle weights and speed are reduced. The department of transportation or the authority that enacts the ordinance or resolution shall erect signs designating the department's order or the authority's ordinance or resolution at each end of that portion of the highway affected, and the order, ordinance, or resolution is not effective until the signs are erected. The department of transportation or the authority by ordinance or resolution may prohibit the operation of trucks or other commercial vehicles or impose limitations on their weight on designated highways, subject to the provisions of

HeinOnline -- 1997 vol. I 1049 1997

subsection (3). These prohibitions and limitations must be designated by appropriate signs placed on the highways.

(3) Neither the department of transportation nor a local authority may prohibit the operation of or impose a restriction on the weight of a vehicle loaded with perishable seed potatoes that is traveling on a public highway if:

(a) the vehicle is being operated within its legal licensed gross vehicle weight;

~~(b) a permit has been issued under 61-10-107(3), regardless of the vehicle's gross weight, specifying the route from point of loading to the nearest nonrestricted road; and~~

~~(c)~~*(b)* the driver possesses a federal-state inspection certificate issued for the load*; and*

*(c) the vehicle takes the most direct route from the point of loading to the nearest nonrestricted road.*

~~(4) A permit referred to in subsection (3) may be revoked for violating any condition of the permit.~~"

**Section 7.** Section 61-10-144, MCA, is amended to read:

**"61-10-144. Violation of standards — tolerance.** (1) It is a misdemeanor for a person, firm, or corporation to violate any provision of 61-10-101 through 61-10-104 and 61-10-106 through 61-10-110.

(2) However, the operator of a vehicle or combination of vehicles may move over the highways to the first open state scale, permanent or portable, without incurring the excess weight penalties set forth in 61-10-145 if the total gross weight of the vehicle or combination of vehicles does not exceed allowable total gross weight limitations by more than 7% and if the weight carried by any axle or combination of axles does not exceed the allowable axle weight limitations by more than 7%. ~~In the event that~~ *If* the vehicle or combination of vehicles is not in excess of the allowable total gross or axle weight limitations by more than 7%, the department may issue a single trip permit for the fee of $10, allowing the vehicle or combination of vehicles to move over the highways to the first facility where its load can be safely adjusted or to its destination. Violations of total gross or axle weight limitations in excess of 7% are subject to the fines provided in 61-10-145, and all loads in excess of 7% of the total gross or axle weight limitations:

(a) may be required to be adjusted or reduced to conform to the size and weight limitations before the vehicle or combination of vehicles is moved from the point of weighing; or

(b) may be issued a permit as authorized by 61-10-141.

(3) ~~An operator of a vehicle or combination of vehicles subject to the provisions of 61-10-107(4)~~ *Farm vehicles transporting agricultural products from a harvesting combine or other harvesting machinery* may move over a highway, except any highway that is part of the federal-aid interstate system, within a 50-mile radius of the harvested field to the point of first unloading without incurring the excess weight penalties set forth in 61-10-145 if the total gross weight of the *farm* vehicle or combination of vehicles does not exceed allowable

weight limitations by more than 20% ~~per~~ *for each* axle, but the maximum load ~~per~~ *for each* inch of tire width may not exceed 670 pounds. The *farm* vehicle or combination of vehicles may not exceed 40 miles an hour. A single trip permit, as required in subsection (2), is not applicable to the *farm* vehicle or combination of vehicles. When a *farm* vehicle or combination of vehicles violates any of the provisions of this subsection, the fine or penalty imposed applies to that portion of the load above the legal limit."

**Section 8.** Section 61-10-145, MCA, is amended to read:

**"61-10-145. Penalties.** (1) A person, firm, or corperation convicted of violating 61-10-101 through 61-10-104 and 61-10-106 through 61-10-110 shall be punished by a fine of not less than $30 or more than $100. (d) $175 for any excess weight more than 6,000 pounds and less than 8,001 pounds;

(e) $250 for any excess weight more than 8,000 pounds and less than 10,001 pounds;

(f) $275 for any excess weight more than 10,000 pounds and less than 12,001 pounds;

(g) $300 for any excess weight more than 12,000 pounds and less than 14,001 pounds;

(h) $400 for any excess weight more than 14,000 pounds and less than 16,001 pounds;

(2) If a motor vehicle is equipped with a retractable axle that is not fully extended and carrying its proportionate share of the load while the motor vehicle is operated upon the highways of this state, the weight penalties in subsection

(1) apply to all weight over the legal maximum allowed by the fixed axles regardless of whether the axle is extended at the time of weighing. In addition to the penalties in subsection (1), the owner or operator shall be fined $100 for failure to have the retractable axle fully extended while the gross weight of the vehicle exceeds the legal maximum allowed by the fixed axles.

(3) A complaint filed and a summons or notice to appear issued pertaining to a violation of the gross weight regulations in 61-10-101 through 61-10-104 and 61-10-106 through 61-10-110 must specify the amount of the excess weight that the defendant is alleged to have had upon the vehicle or combination of vehicles.

~~(4) The penalties in subsection (1) do not apply to an operator who fails to secure a special permit as provided for in 61-10-107(3) if the vehicle or combination of vehicles is not overweight with that permit. The failure to obtain the special permit is punishable under 61-10-146 and under this section as provided in 61-10-146, and the operator is required to purchase the permit. If the vehicle or combination of vehicles exceeds the weight limitations allowed by special permit and the operator fails to obtain a permit under 61-10-107(3), the penalties of subsection (1) apply to the weight exceeding 80,000 pounds.~~

~~(5)~~*(4)* It is a misdemeanor, punishable as provided in 46-18-212, for a person, firm, or corporation to violate any of the provisions of 61-10-123, 61-10-141, or 61-10-142."

(2) A person, firm, or corporation convicted of:

(a) operating a vehicle or combination of vehicles with weight upon a wheel, axle, or group of axles greater than the maximum authorized by a special permit or of operating without a special permit a vehicle or combination of vehicles the weight of which requires a special permit shall, in addition to the other penalties provided by law for the offense, be punished by a fine in the amount provided in 61-10-145(1); or

(b) violating any provision of 61-10-124~~(6)~~*(4)* or any restriction on the special permits issued by the department under 61-10-124~~(6)~~*(4)* shall be punished by a fine of not less than $500 or more than $1,000, and all special permits issued for the operation of the combination in violation ~~shall~~ *must* be confiscated. A preliminary list of registered electors may bo printed before the

close of registration for an election. If a preliminary list is printed, a supplementary list must be printed after the close of registration.

(2) A copy of the list of registered voters must be displayed at the polling place. Extra copies of the lists must be retained by the election administrator and furnished to an elector upon request.

(3) The list of registered electors prepared for a primary election may be used for the general election if a supplemental list giving the additions and deletions since the primary list was prepared is printed. The election administrator may prepare lists for a special election, but lists are not required to be printed for special elections.

AN ACT GENERALLY REVISING THE DISPOSITION OF GASOLINE TAXES AND FEDERAL HIGHWAY FUNDS; CORRECTLY IDENTIFYING THE LOCAL TECHNICAL ASSISTANCE TRANSPORTATION PROGRAM; CORRECTLY IDENTIFYING ROUTE DESIGNATION IN ACCORDANCE WITH FEDERAL LAW; ALLOWING THE DISBURSEMENT OF GASOLINE TAXES TO CONSOLIDATED CITY-COUNTY GOVERNMENTS; MODIFYING FUNDING ALLOCATION FORMULAS TO REFLECT THE MOST RECENT CENSUS DATA; REVISING THE DEFINITION OF "RURAL POPULATION" AND "RURAL ROAD MILEAGE"; AMENDING SECTIONS 15-70-101 AND 60-3-206, MCA; AND PROVIDING AN EFFECTIVE DATE.

*Be it enacted by the Legislature of the State of Montana:*

**Section 1.** Section 15-70-101, MCA, is amended to read:

**"15-70-101. Disposition of funds.** (1) All taxes collected under this chapter must, in accordance with the provisions of 15-1-501, be placed in a highway revenue account in the state special revenue fund to the credit of the department of transportation. Those funds allocated to cities, towns, ~~and~~ counties, *and consolidated city-county governments* in this section must, in accordance with the provisions of 15-1-501, be paid by the department of transportation from the state special revenue fund to the cities, towns, ~~and~~ counties, *and consolidated city-county governments*.

(2) The amount of $16,766,000 of the taxes collected under this chapter is statutorily appropriated, as provided in 17-7-502, to the department of transportation and must be allocated each fiscal year on a monthly basis to the counties, ~~and~~ incorporated cities and towns, *and consolidated city-county governments* in Montana for construction, reconstruction, maintenance, and repair of rural roads and city or town streets and alleys, as provided in subsections (2)(a) through (2)(c):

(a) The amount of $54,000 must be designated for the purposes and functions of the Montana ~~rural~~ *local* technical assistance transportation program in Bozeman.

(b) The amount of $6,323,000 must be divided among the various counties in the following manner:

(i) 40% in the ratio that the rural road mileage in each county, exclusive of the ~~federal-aid interstate~~ *national highway* system and the ~~federal-aid~~ primary system, bears to the total rural road mileage in the state, exclusive of the

~~federal-aid interstate~~ *national highway* system and the ~~federal-aid~~ primary system;

(ii) 40% in the ratio that the rural population in each county outside incorporated cities and towns bears to the total rural population in the state outside incorporated cities and towns;

(iii) 20% in the ratio that the land area of each county bears to the total land area of the state.

(c) The amount of $10,389,000 must be divided among the incorporated cities and towns in the following manner:

(i) 50% of the sum in the ratio that the population within the corporate limits of the city or town bears to the total population within corporate limits of all the cities and towns in Montana;

(ii) 50% in the ratio that the city or town street and alley mileage, exclusive of the ~~federal-aid interstate~~ *national highway* system and the ~~federal-aid~~ primary system, within corporate limits bears to the total street and alley mileage, exclusive of the ~~federal-aid interstate~~ *national highway* system and ~~federal-aid~~ primary system, within the corporate limits of all cities and towns in Montana.

*(3) (a) For the purpose of allocating the funds in subsections (2)(b) and (2)(c) to a consolidated city-county government, each entity must be considered to have separate city and county boundaries. The city limit boundaries are the last official city limit boundaries for the former city and must be used to determine city and county populations and road mileages in the following manner:*

*(i) Percentage factors must be calculated to determine separate populations for the city and rural county by using the last official decennial federal census population figures that recognized an incorporated city and the rural county. The factors must be based on the ratio of the city to the rural county population, considering the total population in the county minus the population of any other incorporated city or town in the county.*

*(ii) The city and county populations must be calculated by multiplying the total county population, as determined by the latest official decennial census or the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census, minus the population of any other incorporated city or town in that county, by the factors established in subsection (3)(a)(i).*

*(b) The amount allocated by this method for the city and the county must be combined, and single monthly payments must be made to the consolidated city-county government.*

~~(3)~~*(4)* All funds allocated by this section to counties, cities, ~~and~~ towns, *and consolidated city-county governments* must be used for the construction, reconstruction, maintenance, and repair of rural roads or city or town streets and alleys or for the share that the city, town, ~~or~~ county, *or consolidated city-county government* might otherwise expend for proportionate matching of federal funds allocated for the construction of roads or streets that are part of the ~~federal-aid~~ primary or secondary highway system or urban extensions to those systems~~, except that the~~. *The* governing body of a town or third-class city, as defined in

HeinOnline -- 1997 vol. I 1085 1997

7-1-4111, may each year expend no more than 25% of the funds allocated to that town or third-class city for the purchase of capital equipment and supplies to be used for the maintenance and repair of town or third-class city streets and alleys.

~~(4)~~*(5)* All funds allocated by this section to counties, cities, ~~and~~ towns, *and consolidated city-county governments* must be disbursed to the lowest responsible bidder according to applicable bidding procedures followed in all cases in which the contract for construction, reconstruction, maintenance, or repair is in excess of $4,000.

~~(5)~~*(6)* For the purposes of this section in which distribution of funds is made on a basis related to population, the population must be determined ~~by the last preceding official federal census~~ *annually for counties and biennially for cities according to the latest official decennial census or the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census.*

~~(6)~~*(7)* For the purposes of this section in which determination of mileage is necessary for distribution of funds, it is the responsibility of the cities, towns, ~~and~~ counties, *and consolidated city-county governments* to furnish to the department of transportation a yearly certified statement indicating the total mileage within their respective areas applicable to this chapter. All mileage submitted is subject to review and approval by the department of transportation.

~~(7)~~*(8)* Except by a town or third-class city as provided in subsection ~~(3)~~ *(4)*, the funds authorized by this section may not be used for the purchase of capital equipment.

~~(8)~~*(9)* Funds authorized by this section must be used for construction and maintenance programs."

**"60-3-206. Apportionment of ~~state~~ funds to secondary highway system.** (1) Each fiscal year the department shall apportion the federal-aid highway funds allocated for the secondary highway system among the counties. The proportion that each county receives is computed on the following basis:

(a) one-fourth in the ratio of land area in each county to the total land area in the state;

(b) one-fourth in the ratio of the rural population in each county to the total rural population in the state;

(c) one-fourth in the ratio of the rural road mileage in each county to the total rural road mileage in the state;

(d) one-fourth in the ratio of value of rural lands in each county to the total value of rural lands in the state.

(2) To the extent necessary to permit orderly programming and construction of projects, obligations in ~~any~~ *a* county may exceed the amount apportioned to that county. The amount of ~~any~~ excess obligations must be deducted from future apportionments to that county.

(3) For the purposes of this section, terms are defined as follows:

HeinOnline -- 1997 vol. I 1086 1997

(a) "Rural population" means total *county* population *as reported in the latest decennial federal census* less the population in cities over 5,000 persons and their unincorporated fringe urban areas as ~~reported in~~ *determined by the department, using* the latest *decennial* federal census. ~~Federal census population figures must be adjusted in the interim between censuses in accordance with the percentage of change in annual motor vehicle registration figures for each county.~~

(b) *(i)* "Rural road mileage" means all road mileage outside of incorporated cities *and towns*, exclusive of road mileage on the primary highway system and the national highway system, *and those roads that are inside incorporated cities and towns and are functionally classified and approved by the commission as a major collector or a minor arterial, exclusive of road mileage on the primary system and the national highway system.*

*(ii) Road mileage that lies within incorporated cities over 5,000 persons and their unincorporated fringe urban areas, whose population is determined by the department, using the latest decennial federal census, is not considered rural road mileage.*

*(iii)* Rural road mileage reported by the road inventory of the department must be used in determining rural road mileage.

(c) "Value of rural lands" includes the value of state-owned lands from which the state derives grazing, timber, and agricultural income.

(i) The basis for the value of rural lands must be computed from the latest ~~biennial report of~~ *available information from* the department of revenue.

(ii) The basis for the value of state-owned lands must be computed from the latest figures on the total grazing, timber, and agricultural lands in each county ~~contained in the latest biennial report of the~~ *based on the most recent information available from the* department of ~~state lands~~ *natural resources and conservation.*

~~(iii) The average value of privately owned lands is the average value of state owned lands if the actual value is not available.~~"

2. Tribal Water Right: Administration. Subject to the limitations imposed by this Compact and other federal law, the use of the Tribal Water Right shall be administered by the Tribe through the TWRD both on and off of the Reservation. Disputes, not within the jurisdiction of the Compact Board set forth in D.4. of Article IV, concerning off-Reservation use of tbe Tribal Water Right which raise issues concerning the application of state or federal law shall be resolved in a court of competent jurisdiction. Those disputes concerning off-Reservation use of the Tribal Water Right which do not raise issues concerning the application of state or federal law will be within the exclusive jurisdiction of the Tribe. Subject to the limitations imposed by this Compact, the Tribe shall have the final and exclusive jurisdiction to resolve all disputes concerning the Tribal Water Right between users of the Tribal Water Right. The TWRD will, among other activities, develop policies and procedures for monitoring water use, diversions, and maintaining records of water use and development consistent with this Compact. The current and future water use and diversions will be identified by location and quantity. Final storage capacities will be based on project as-built plans, and will store no more than the water right set forth in Article III of this Compact. Administration and enforcement of the Tribal Water Right shall be pursuant to a Tribal water code, which shall be developed and adopted by the Tribe within two (2) years following the ratification date of this Compact pursuant to any requirements set forth in the Constitution of the Chippewa Cree Tribe. Pending the adoption of the Tribal water code, the administration and enforcement of the Tribal Water Right shall be by the Secretary of the Interior.

3. Use.

a. Persons Entitled to Use the Tribal Water Right. The Tribal Water Right may be used by the Tribe, or persons authorized by the Tribe.

b. Effect of Non-Use of Tribal Water Rights. Except as specifically provided herein, state law doctrines relating to the use of water rights, including but not limited to relinquishment, forfeiture or abandonment, do not apply to the Tribal Water Right. Thus, non-use of all or any of the Tribal Water Right described in Article III shall not constitute a relinquishment, forfeiture or abandonment of such rights.

4. Change in Use or Transfer.

a. On-Reservation Changes in Use or Transfer of the Tribal Water Right. Unless otherwise stated in this Compact, the Tribe may make a change in use or transfer of a water right set forth in Article III of this Compact on the Rocky Boy Reservation, including the use of water salvaged through the application of water-saving methods to expand irrigation, provided that:

(1) for each source quantified in Article III, any change in use or transfer shall not result in uses that exceed the water amount quantified for that source;

HeinOnline -- 1997 vol. I 1184 1997

(2) any change in use or transfer shall not result in an increase in net depletion in the Beaver Creek drainage in excess of the amount specified for that source;

(3) any change in use or transfer shall not have an adverse effect on a water right recognized under state law with a priority date before the date of the change or transfer provided that for change in use or transfer of groundwater, the burden as to adverse effect shall be as set forth in Section A.6. of Article IV; and

(4) any change in use or transfer shall not change the source of the water involved in any such changes.

(5) The Tribe may not make a change in use or transfer of any water rights set forth in Article III for the purposes of stockwatering or fish and wildlife enhancement; provided that, the Tribe may repair or relocate an impoundment for stockwatering or fish and wildlife enhancement within the drainage of origin; and provided further that, the new point of diversion or place of use does not change to a place from upstream of to downstream of, or from downstream of to upstream of the location of the point of diversion of a water right recognized under state law with a priority date before the date the Compact is ratified hy the State and the Tribe, whichever date is later.

(6) The Tribe may not make a change in use or transfer any of the water rights set forth in Article III with a source on the drainages of Upper Big Sandy Creek, Camp Creek, Duck Creek and Gorman Creek that results in a change in the place of use, point of diversion or place or means of storage of the water outside the drainage of origin or to a place from upstream of to downstream of, or from downstream of to upstream of the location of the point of diversion of a water right recognized under state law with a priority date before the date the Compact is ratified by the State and the Tribe, whichever date is later.

(7) The Tribe may make a change in use or transfer of the irrigation water right with a source in Upper Big Sandy Creek drainage as set forth in Section A.5.e. of Article III so long as it does so within the diversionary limits set forth in Section A.5.d. of Article III; provided that, the net depletion shall not exceed 30 AFY.

b. Off-Reservation Changes in Use or Transfer of the Tribal Water Right. Except as may be otherwise provided in this Compact, the Tribe, pursuant to federal law, may make or permit a change in use or a transfer of the Tribal Water Right for use off the Reservation; provided that, any transfer shall be for a term of not to exceed 100 years, and may include provisions authorizing renewal for an additional term of not to exceed 100 years; and provided further that, no such transfer shall be a permanent alienation of the water transferred; and provided further that, no transfer or change in place of use shall be made to a location outside the watershed that forms the Missouri River drainage; and provided further that, if the Tribe receives a good faith offer from a third person from outside the Milk River drainage to acquire use of specified Tribal water rights and the Tribe is willing to accept the terms of the offer, the Tribe, before accepting the offer, shall allow water users in the Milk River drainage the opportunity to acquire use of such rights at the same price and on the same terms and conditions as those contained in the offer. Any change in use or transfer of any such water right involving a point of diversion or place of use located off the Reservation shall be considered an off-Reservation use; provided that, any off-Reservation use

HeinOnline -- 1997 vol. I 1185 1997

of Tribal water rights described in this Compact shall not be deemed to convert such rights to rights arising under state law, and nonuse of such rights off the Reservation shall not constitute a relinquisbment, forfeiture, or ahandonment of the rights; and provided further that, releases or diversions from Lake Elwell for use on the Reservation shall not be considered off-Reservation uses. The Tribe may change the point of diversion or purpose or place of use of tbe Tribal Water Right back to the Reservation without reduction in tlie amount of water provided in the Compact.

(1) Applicable Law. No person may initiate an off-Reservation use, change in use, or transfer of a Tribal water right set forth in this Compact without first applying for and receiving authorization for the use, change in use, or transfer pursuant to Montana law in effect at tbe time of the application. Approval of an application for a use, change in use or transfer off the Reservation by the State shall be conditioned on a valid Tribal permit for such use, change in use or transfer by the Tribe. Tbe applicant shall provide DNRC with proof of a valid Trihal permit prior to initiating the use, cbange in use, or transfer.

(2) Diversion Facilities. With respect to diversion or transportation facilities located off the Reservation which are to be used in connection with the exercise of a water right set forth in this Compact, the Tribe or persons using such water rights shall apply for all permits, certificates, variances and other autborizations required by state laws regulating, conditioning or permitting the siting, construction, operation, alteration or use of any equipment, device, facility or associated facility proposed to use or transport water. A diversion or use of water in the exercise of such water rights may be made only after all permits, certificates, variances or other authorizations applied for pursuant to tbis paragraph bave been obtained.

(3) Subsequent Federal or State Law. All off-Reservation uses of Tribal water rights set forth in this Compact shall comply with the requirements set forth in Section A.4.b.(1) and (2) of Article IV until such time as the statutory or common law of tbe United States or the State of Montana establish that off-Reservation uses of Indian water rights may occur without regard to state law.

c. Placement and Size Survey. Placement and size of stockwater impoundments and fish and wildlife enhancement areas shall be surveyed by the TWRD every five (5) years commencing one (1) year after the ratification date of this Compact. The initial survey method shall he through use of data obtained by aerial photography or an acceptable quantitative substitute with accuracy and verification equal to or greater than photography. The method may be modified by agreement between the TWRD and the DNRC. Such modification is pursuant to and shall not be deemed a modification of this Compact. The TWRD shall provide the DNRC with a completed survey for review within six (6) months of initiation of the survey.

d. Net Depletion Table. Net depletion for Tribal water uses in the Beaver Creek drainage and for irrigation uses in the Upper Big Sandy Creek drainage sball be as set forth in the table attached as Appendix 9 to this Compact. Tbe TWRD and the DNRC may jointly agree to modify this initial table. Such modification is pursuant to, and will not be deemed a modification of, this Compact.

5. Reporting requirements.

a. On an annual basis the DNRC shall provide the Tribe and the United States with a listing of all new uses of surface and groundwater for which a permit has been issued by the DNRC in the Big Sandy and Beaver Creek drainages, and of any change in use or transfer of surface water or groundwater approved by the DNRC in the Big Sandy and Beaver Creek drainages since the last report.

b. On an annual basis the TWRD shall provide the State and the United States with a listing of all new development of the water rights described in this Compact, the net depletion in the Beaver Creek drainage, and the net depletion for irrigation in the Upper Big Sandy Creek drainage, and of all changes in use or transfers of the water rights described in this Compact since the last report. The first report by the TWRD following adoption of a Tribal Water Code shall include a listing of existing uses.

c. The TWRD, the DNRC, and the United States may agree to modify the reporting requirements set forth in subsections a. and b. of this section. Such modification is pursuant to, and will not be deemed a modification of, this Compact.

6. Groundwater.

a. New Groundwater Development Without Adverse Effect.

(1) Limits on Additional Development of Groundwater from Sources on the Reservation. After the ratification date of this Compact, the Tribe may develop or permit the development of groundwater; provided that, such development is without an adverse effect on water rights recognized under state law with a priority date before the date of development of the new appropriation.

(2) Prerequisite Administrative Remedy. The following procedure for determining whether new development of groundwater will have an adverse effect on existing groundwater rights recognized under state law shall be followed prior to seeking relief from the Compact Board:

(a) Application for development of a groundwater use on the Reservation shall be made to the TWRD.

(b) The TWRD shall review the application and make a determination of whether the new use will have an adverse effect on existing water rights recognized under state law with a priority date before the application date. Upon request by the TWRD, the DNRC shall provide information on existing state water rights as recorded in the DNRC database to the TWRD.

(c) If the TWRD determines that the new development will have an adverse effect on a water right recognized under state law with a priority date before the application date, the TWRD shall deny the application. If the TWRD determines that the new development will not have an adverse effect on a water right recognized under state law with a priority date before the application date, the TWRD shall forward the application with its determination to the DNRC.

(d) If, based upon the evidence, DNRC agrees with the TWRD's determination, the application will be approved. If, however, based upon the evidence, the DNRC cannot agree with the determination of the TWRD, DNRC

HeinOnline -- 1997 vol. I 1187 1997

shall publish notice, of the application once in a newspaper of general circulation in the area of the source and shall serve notice by first-class mail on any appropriator of water or holder of a permit who, according to the records of the department, has a water right with a priority date before the application date, and may be affected by the proposed development.

(e) DNRC and the TWRD shall attempt to resolve any disagreement on the determination of no adverse effect by the TWRD on a cooperative basis. If the DNRC or a holder of a water right recognized under state law with a priority date before the application date disagree with the determination of no adverse effect, DNRC or the water users may seek relief from the Compact Board.

(f) In any proceeding concerning the effect of new groundwater development on the Reservation either before the TWRD, the DNRC, or before the Compact Board, the following shall apply:

(i) 1 - 150 Feet Wells: For new Tribal groundwater wells completed at a depth beneath the surface of 1 to 150 feet, the Tribe shall bear the burden of showing no adverse effect to groundwater uses recognized under state law with a priority date before the application date.

(ii) 150 Feet or Deeper Wells: For Tribal groundwater wells completed at a depth beneath the surface of 150 feet or deeper, the owner of a water right recognized under state law with a priority date before the application date shall bear the burden of showing any adverse effect to the water right.

b. Groundwater Development Exempt From The Showing Of No Adverse Effect. The following wells are exempt from the requirement of showing no adverse effect:

(1) Existing Tribal wells are exempt from the burden to show no adverse effect. The Tribe may develop existing wells, or replacements therefor, to their full capacity. The primary municipal and domestic wells are listed in Appendix 8. A comprehensive list of existing wells will be kept on file in TWRD offices as per the requirement to list existing uses in Section A.5. of Article IV.

(2) New Tribal groundwater wells producing from the Volcanic Bedrock Aquifer may be developed without a showing of no adverse effect.

c. Ancestral Missouri River Channel Aquifer. Groundwater from the Ancestral Missouri River Channel Aquifer shall be a primary source for non-irrigation uses; provided that, the non-irrigation uses do not result in discharge of untreated water to land or surface water. Groundwater from the Ancestral Missouri River Channel Aquifer is a supplemental source for irrigation uses.

7. Moratorium.

a. New State Permits. With the exceptions listed in subsection (1) of this section, the DNRC shall not process or grant an application for a permit to appropriate water from a source in the Big Sandy Creek Basin (excluding Sage Creek and Lonesome Lake Coulee), and in the Beaver Creek drainage after the date this Compact is ratified by the Montana Legislature and by the Chippewa Cree Business Committee, whichever date is later. This moratorium shall remain in effect for a minimum of 10 years and shall only be lifted pursuant to the

procedures set forth in Section A.7.b of Article IV. This moratorium is not intended to apply to applications for change in appropriation under state law.

(1) The moratorium shall not apply to the following appropriations:

(a) an appropriation of groundwater by means of a well or developed spring with a maximum appropriation of 35 gallons per minute or less, not to exceed 10 acre-feet per year unless the appropriation is a combined appropriation from the same source from two or more wells or developed springs exceeding the limitation;

(b) an appropriation of water for use by livestock if the maximum capacity of the impoundment or pit is less than 15 acre-feet and the appropriation is less than 30 acre-feet per year and is from a source other than a perennial flowing stream;

(c) an appropriation of groundwater from any deep aquifer not hydrologically connected to surface water.

(2) Within 120 days following the date the moratorium takes effect, the DNRC shall publish notice of the moratorium once in a newspaper of general circulation in the area of the source and shall serve notice by first-class mail on all appropriators of water or holders of permits who, according to the records of the department, have a water right with a source in the affected drainages.

(3) The moratorium applies only to new permits issued under state law and is not a limit on new development of the Tribal Water Right as set forth in this Compact.

h. Lifting of Moratorium. After 10 years, the Tribe or an individual seeking to appropriate water in the affected drainages may petition the DNRC for removal of the moratorium, or the DNRC may initiate proceedings to lift a moratorium on its own initiative. The DNRC shall comply with the following procedure in making a determination as to whether water is available in excess of the Tribal Water Right and rights recognized under state law. The DNRC and TWRD may agree to modify procedures or provide additional procedures. Such modification is pursuant to and shall not be deemed to be a modification of the Compact.

(1) Proceedings initiated by TWRD.

(a) The TWRD shall have sixty (60) days following the filing of the petition requesting that the moratorium be lifted to provide the DNRC with data supporting its petition to lift the moratorium.

(b) Within sixty (60) days following the receipt of the data supporting TWRD's petition, the DNRC shall determine whether to lift the moratorium, and shall notify the TWRD of its determination and the grounds therefor. The TWRD shall be allowed reasonable access to any data relied upon by the DNRC for its determination.

(c) Within thirty (30) days following a determination by the DNRC not to lift the moratorium, the TWRD may challenge the DNRC's determination in a de novo proceeding before the Compact Board. The moratorium shall continue pending Compact Board proceedings and any appeal

HeinOnline -- 1997 vol. I 1189 1997

(2) Proceedings initiated by DNRC.

(a) The DNRC may, on request by a water user or on its own initiative, commence proceedings to determine whether to lift a moratorium.

(b) The DNRC shall notify the TWRD of the commencement of proceedings to determine whether to lift the moratorium and shall submit to the TWRD all data in support of the proceedings at the same time or as soon after such data becomes available as practical or shall give the TWRD reasonable access to such data within the same time frame.

(c) The TWRD shall be given sixty (60) days following receipt of the data in support of the proceedings to submit to the DNRC a statement of the Tribe's position concerning the issue along with any supporting data and argument.

(d) The DNRC shall notify the TWRD of its determination and the grounds therefor within sixty (60) days of receipt of the Tribe's statement.

(e) Within thirty (30) days following a determination by the DNRC not to lift the moratorium, the TWRD may challenge the DNRC's determination in a de novo proceeding before the Compact Board. The moratorium shall continue pending Compact Board proceedings and any appeal.

c. Excess Water. If the moratorium is lifted pursuant to the procedure described in A.7.b. of Article IV, the Tribe shall have the first right to use the excess water for the purpose of fulfilling new reserved water rights, if any, on land acquired after the ratification date of this Compact, but before the date the moratorium is lifted. The excess water used by the Tribe shall become part of the Tribal Water Right and the tribe may make a change in use of, or transfer, including storage, of such water pursuant to Section A.4.a. of Article IV.

d. Limit on New Tribal Groundwater Development. In any drainage with a moratorium, new Tribal groundwater development pursuant to Section C.1. of Article III, by a well or developed spring from an aquifer that is hydrologically connected to surface water shall be limited to a maximum appropriation or combined appropriation from two or more wells or developed springs in a single drainage defined by this Compact to 35 gallons per minute or less, not to exceed 10 acre-feet per year.

8. Mutual Subordination. To reduce the need for daily administration of water use on and off the Reservation, water rights shall not be administered in priority, but shall be satisfied according to the following agreements.

a. Subordination to Non-Tribal Water Rights Upstream of the Reservation. The Tribal Water Right shall be subordinate to water rights recognized under state law upstream from any point on the Reservation with a priority date before the ratification date of this Compact. It is the intent of the parties that this subordination extends only to valid water rights, and not to statements of claim filed pursuant to 85-2-221, MCA. With the exception of rights exempt from filing in the state adjudication pursuant to 85-2-222, MCA, and rights exempt from the permit process pursuant to 85-2-306, MCA, a list of rights as currently claimed is attached as Appendix 3. Appendix 3 will be modified by any final decree resolving claims on the affected drainages. Appendix 3 may be modified due to clerical error or omission.

HeinOnline -- 1997 vol. I 1190 1997

b. Effect of Mitigation. Because the impact of development of the Tribal Water Right on downstream water rights recognized under State law has been mitigated by provisions of the Compact and by special measures set forth in drainage stipulations, any person claiming or holding a water right recognized under State law, or an interest in such water right, may not assert priority over, or make a call for, or claim any of the water rights of the Tribe set forth in this Compact, in any court, tribunal, or other forum.

9. Stockwatering Impoundments Limited by Surface Area. Except for new stock ponds developed under Section C.2. of Article III, the surface acreage limitations on stockwatering impoundments set forth in Article III shall he the measure of compliance with the quantification of water rights for the purpose of stockwatering.

10. Impoundments for the Purpose of Enhancing Fish and Wildlife Habitat.

a. Fish and Wildlife Enhancement Impoundments Limited by Surface Area. The surface acreage limitations on impeundments for the purpose of fish and wildlife enhancement set forth in Article III shall be the measure of compliance with the quantification of water rights for the purpose of fish and wildlife enhancement.

b. Limits on Structures. No structure for the purpose of fish and wildlife enhancement may create a potential high water line beyond the existing wet riparian habitat delineated as fish and wildlife enhancement zones on the map attached as Appendix 4.

11. Structures Mimic Natural Processes. No structure for the purpose of fish and wildlife enhancement, or new stockwatering impoundments on a perennial stream built after the ratification date of the Compact, excluding repair or replacement of existing structures, may stop the entire flow of surface water during filling of the impoundment. To accomplish this the Tribe shall build any structure to mimic natural processes by allowing water to flow through the structure, or bypass the structure during filling.

B. Big Sandy Creek Basin.

1. Operation of Bonneau Reservoir.

a. Minimum Pool / 240 AFY Stored for Satisfaction of Release. The minimum pool at Bonneau Reservoir shall be established by the Tribe. The Tribe shall store annually the minimum pool plus 240 acre-feet, if water is available. The 240 acre-feet above the minimum pool shall be stored to satisfy the release set forth in this Article and shall not be available to satisfy the Tribal Water Right. Evaporative loss shall be accounted for in setting the minimum pool and shall not be subtracted from the 240 acre-foot pool stored for downstream water users. Any change in use of the water stored in Bonneau Reservoir from irrigation to other purposes shall be without adverse effect on downstream water uses recognized under state law with a priority date before the date of change, and measures to prevent adverse effect may include release of additional water from Bonneau Reservoir.

b. Release for Off-Reservation Irrigation Use. The Tribe shall release no more than 104 AFY from Bonneau Reservoir or from direct flow of Box Elder Creek to satisfy the claims for irrigation water rights currently held by Bert Corcoran, and

HeinOnline -- 1997 vol. I 1191 1997

the Tribe shall deliver this water to a point of diversion specified in the drainage stipulation between the Tribe and Mr. Corcoran attached as part of Appendix 2; provided that, the Tribe shall have no responsibility to upgrade or to increase the capacity of the existing delivery system; and further provided that, the Tribe shall not be required to release water from Bonneau Reservoir below the minimum pool established by the Tribe plus 240 acre-feet prior to satisfaction of the 240 acre-feet per year release set forth in Section B.1.c. of Article IV, and the minimum pool at all other times. The 104 AFY release shall be in accordance with a delivery schedule agreed to by Mr. Corcoran, or his successors in interest, and the TWRD. Mr. Corcoran's claims for irrigation water rights shall be specified in the drainage stipulation between the Tribe and Mr. Corcoran attached as part of Appendix 2. Nothing in the drainage stipulation or in this Compact shall affect any existing right that Mr. Corcoran may have to the use of on-Reservation conveyance and distribution systems to deliver this water.

c. 240 AFY Release. The Tribe shall annually release the first 240 acre-feet of water, as measured near the confluence of Box Elder Creek and Lower Big Sandy Creek, stored in Bonneau Reservoir above the minimum pool, at the request of the downstream irrigation water users as set forth below, for maintenance of instream flow and for domestic and stock purposes on Lower Big Sandy Creek. The 240 AF of water, once released, shall be designated as an instream flow and shall be senior to all Tribal diversions and all non-domestic and non-stockwater rights recognized under state law from the point of release to the confluence with the Milk River. The Tribe shall not divert from direct flow on Lower Big Sandy Creek between its confluence with Box Elder Creek and the Reservation boundary at Stoneman Farms, as that boundary exists on the effective date of this Compact, during release of the 240 AF of water to downstream water users in the months of July and August. A structure that will bypass the peak scheduled release will be constructod for any diversion of the Tribal Water Right upstream of the confluence of Big Sandy Creek with Gravel Coulee. Under no circumstances shall the Tribe be required to release more than 240 AFY of water to maintain instream flow and for domestic and stock purposes.

d. Schedule for 240 AFY. The method for determining the schedule of releases is as follows: Water users on Lower Big Sandy Creek with drainage stipulations listed in Appendix 2 shall elect a three member Bonneau Release Committee to determine the schedule of release for the 240 AFY. The Committoe shall notify the DNRC which shall notify the TWRD by May 1st of each year of the requested schedule. The schedule shall not exceed the operating standards of Bonneau Reservoir or result in unreasonable interference of the Tribe's use of water stored in the Reservoir. If the TWRD does not receive notice by May 1 of any year, the TWRD shall release 2 cfs continuously for July and August in accordance with Section B.1.c. of Article IV. DNRC shall notify water users which, according to the records of the Department, have a water right recognized under state law with a source on Box Elder Creek, or on Big Sandy Creek between the confluence with Box Elder Creek and the confluence with the Milk River, that the release may not be diverted. After May 1, at the request of the Bonneau Release Committee, the DNRC shall request the Tribe to alter the rate of release and the Tribe may agree to comply. At the request of the Tribe, the DNRC shall request the Bonneau Release Committee to agree to forego the release, and if the Committee believes the purposes for the release as set forth in Section B.1.c. of Article IV are being satisfied without the release, the Committee may, in any year, agree to forego the release. When streamflow in lower Big Sandy Creek at

HeinOnline -- 1997 vol. I 1192 1997

the bypass structure referred to in Section B.1.c. of Article IV, exceeds the peak flow specified in the designated release schedule, such excess flow can be diverted by the Tribe, subject to the diversion limits designated in Article III.

e. Effective Date for Bonneau Reservoir Operational Plan. Notwithstanding ratification of this Compact by the parties, the operational plan for Bonneau Reservoir set forth in Sections B.1.a. through c. of Article IV, shall not become effective until completion of the enlargement of Bonneau Dam.

2. Water Use on Lower Big Sandy Creek Drainage.

a. 2 cfs Bypass at Stoneman Farms. Structures will be constructed at each point of diversion on Lower Big Sandy Creek which allow a minimum of 2 cfs of water flow from direct and return flow, if available, to pass year around from the most downstream diversion on the Reservation on Lower Big Sandy Creek. The 2 cfs shall be designated as an instream flow and shall be senior in priority to Tribal diversions and all non-domestic and non-stockwatering water rights recognized under state law with a point of diversion between the bypass and the confluence with the Milk River. When streamflow in Lower Big Sandy Creek exceeds 2 cfs outside the scheduled 240 AF release period, such excess flow can be diverted by the Tribe subject to diversion limits designated in Article III.

b. Water Quality Issues.

(1) Monitoring Wells. Within one year following the effective date of this Compact, a monitoring well network adequate to detect saline seep shall be installed to depths no greater than 30 feet near the proposed Enlarged Stoneman Reservoir site shown in Appendix 6. The location of the wells will be established by TWRD and DNRC (or its representative) and groundwater level and quality sball be measured on a quarterly basis to establish baseline conditions.

(2) Water Quality Monitoring Before Construction. Within one year following the effective date of this Compact, a surface water quality network will be established by TWRD and DNRC and quarterly sampling continued for a sufficient period of time to establish the water quality baseline conditions referred to above, adjacent to and below the Stoneman Farms project. The results of the baseline analysis will be used to establish a threshold value for water quality degradation associated with salinity which will trigger the requirement for more extensive study.

(3) Water Quality Monitoring After Construction. After construction of the Stoneman Reservoir enlargement, monitoring of the wells and surface water quality will be resumed to evaluate changes in water quality. If salinity measurements result in a trend of increasing salinity on a sustained basis over a reasonable period of time, the TWRD or DNRC may petition the Compact Board to appoint a technical expert to conduct an analysis to identify the causes of the increasing salinity and recommend appropriate remedies. The analysis and recommendations may include sources of salinity off the Reservation.

(4) Remedies. The results of the analysis shall be submitted to the DNRC and to the TWRD which shall make a joint effort to resolve the degradation issue based on the analyses. If the analysis includes sources of salinity off the Reservation, the DNRC shall assist the TWRD in obtaining reasonable access onto the land off the Reservation for the purpose of observation. If the DNRC

HeinOnline -- 1997 vol. I 1193 1997

and the TWRD, are unable to resolve the issue within 30 days through joint effort, the DNRC, the TWRD, or any affected water user, may petition the Compact Board for relief. The Compact Board shall have jurisdiction over any contributor to the salinity problem and shall fashion its remedy in a manner proportionate to the causes contributing to the problem. The remedy fashioned by the Compact Board for salinity problems shall be limited to issuance of an order to cease and desist the practice or practices leading to the salinity problems. The remedies set forth in this section shall be in addition to any remedies or water quality standards provided for under other applicable law.

C. Beaver Creek Drainage.

1. Moratorium on Tribal Consumptive Uses. For a period of five years following the ratification date of the Compact, there shall be a moratorium on the development of Tribal consumptive uses from surface water in the Beaver Creek drainage. During this moratorium, a monitoring network consisting of three continuous recording stations will be installed and the resulting data analyzed to determine if Beaver Creek gains or loses flow between the confluence of East and West Fork and the Reservation boundary. Location of the three gages shall be:

(1) the West Fork of Beaver Creek at the location the Tribe intends to divert water to the East Fork;

(2) the confluence of the East and West Forks of Beaver Creek; and

(3) the Reservation boundary at the most downstream point on Beaver Creek. A staff gage shall also be installed in East Fork Reservoir following enlargement of the Reservoir.

2. Development of Management Plan. Based on the results of the five years of gage data on Beaver Creek, the Tribe and the Montana Department of Fish, Wildlife and Parks shall work cooperatively to develop a fishery and recreational management plan. The plan may include modifications in minimum instream flows set forth in Section C.3. of Article IV. Such modification is pursuant to, and will not be deemed a modification of, this Compact. The management plan is not binding on any party and shall not be used to modify minimum instream flows until it is approved by the Tribe and the Montana Department of Fish, Wildlife and Parks.

3. Operation of East Fork Reservoir Following Enlargement and Pending Adoption of a Management Plan. During the moratorium imposed by Section C.1. of Article IV, or pending adoption of the management plan authorized by Section C.2. of Article IV, East Fork Reservoir may be enlarged; provided that,

a. The enlarged Reservoir shall be used only for recreational purposes during the five year moratorium. However, after the five year moratorium period and pending adoption of the management plan, the enlarged Reservoir may be utilized for multiple purposes, but remains subject to the limitations set forth under Sections C.3.b., c., and d. of Article IV.

b. Any surface water diversion from the West Fork of Beaver Creek and its tributaries on the Reservation to the East Fork of Beaver Creek shall include a structure which allows a minimum of 1 cfs of water flow from direct and return flow, if available, to pass year around; provided that, the storing of water in East

HeinOnline -- 1997 vol. I 1194 1997

Fork Reservoir from the East Fork of Beaver Creek shall not be considered a diversion for the purposes of this provision.

c. For the drainage area below the confluence of the East and West Forks of Beaver Creek to the northern Reservation boundary, any surface water diversion from Beaver Creek and its tributaries on the Reservation shall include a structure which allows a minimum of 1 cfs of water flow from direct and return flow, if available, to pass year around; provided that, the storing of water in East Fork Reservoir from the East Fork of Beaver Creek shall not he considered a diversion for the purposes of this provision.

d. The Trihe shall release water from East Fork Reservoir to augment streamflow on Beaver Creek if the flow at the confluence of East and West Fork or below the most downstream diversion on the Reservation, whichever is the most downstream, falls below 1 cfs; provided that, the Tribe shall not be required to release water if the level of the enlarged Reservoir reaches or falls below the minimum pool; and provided further that, the Tribe shall not be required to release water if the flow at the Reservation boundary at the most downstream point on Beaver Creek exceeds 2 cfs.

4. Operation of East Fork Reservoir Prior to Enlargement. Prior to enlargement of East Fork Reservoir and pending adoption of tbe management plan authorized by Section C.2. of Article IV, the following diversionary constraints are in effect.

a. Any surface water diversion from the West and East Forks of Beaver Creek and its trihutaries on the Reservation shall include a structure which allows a minimum of 1 cfs of water flow from direct and return flow, if available, to pass the structure year around.

b. For the drainage area below the confluence of the East and West Forks of Beaver Creek to the northern Reservation boundary, any surface water diversion from Beaver Creek and its tributaries on the Reservation shall include a structure which allows a minimum of 1 cfs of water flow from direct and return flow, if available, to pass year round.

D. Enforcement - Chippewa Cree-Montana Compact Board.

1. Establishment of Board. There is hereby established the Chippewa Cree-Montana Compact Board. The Board shall consist of three members: one member selected by the Governor of the State of Montana from up to six nominees, up to three nominated by the Commissioners of Chouteau County and up to three nominated by the Commissioners of Hill County; one member appointed by the Chippewa Cree Business Committee; and one member selected by the other two members. If the Governor fails to select a board member from the list of nominees, the Commissioners of Chouteau and Hill Counties may select the member. All members shall he appointed within six months of the ratification date of this Compact and within thirty days of the date any vacancy occurs. If an appointment is not timely made by the Governor or County Commissioners, the Director of DNRC or his/her designee shall fill the State's position. If an appointment is not timely made by the Chippewa Cree Business Committee, the Director of the TWRD or his/her designee shall fill the Tribe's position. Each member shall serve a five-year term and shall he eligible for reappointment. The initial term of each member shall be staggered with one member serving a

HeinOnline -- 1997 vol. I 1195 1997

five-year term, one a four-year term, and one a three-year term. The initial term of each member shall be chosen by lot. Expenses of the members appointed by the State and the Tribe shall be borne by the entity appointing the member. The expenses of the third member and all other expenses shall be borne equally by the Tribe and the State, subject to the availability of funds.

2. Membership. Should the two appointed members fail to agree on the selection of a third member within sixty days of the date of appointment of the second member, or within thirty days after any vacancy occurs, the following procedure shall be utilized:

a. Within five days thereafter each member shall nominate three persons to serve as a member of the Board;

b. Within fifteen days thereafter each member shall reject two of the persons nominated by the other member;

c. Within five days thereafter, the remaining two nominees shall be submitted to the Dean of the University of Montana School of Law who shall select the third member from the two nominees.

3. Quorum and Vote Required. Two members of the Board shall constitute a quorum if reasonable notice of the time, place, and purpose of the meeting, hearing, or other proceeding has been provided in advance to the absent member. All Board decisions shall be by a majority of the Board, shall be in writing and, together with any dissenting opinions, shall be served on all parties in the proceeding before the Board, and on the parties to this Compact.

4. Jurisdiction of the Board. The Chippewa Cree-Montana Compact Board shall have jurisdiction to resolve controversies over the right to the use of water as between users of the Tribal Water Right and users of water rights recognized under state law including any contributor to a salinity problem. Such controversies shall include, but shall not be limited to, disputes as to the meaning of this Compact.

5. Pre-requisite Administrative Remedy.

a. Any non-tribal water user concerned that a new development or change in use of water by the Tribe is inconsistent with the Compact shall first contact the Havre Regional Office of the DNRC. If the DNRC and the TWRD are unable to resolve the issue in a reasonable time through discussion, DNRC, the water user, or the Tribe may seek relief through the Compact Board. The Tribe agrees to allow DNRC reasonable access onto Tribal land to observe the challenged development or change in use.

b. The Tribe or any tribal water user concerned that a new development or change in use or transfer of water by non-tribal water users is inconsistent with the Compact shall first contact the TWRD. If the TWRD and the DNRC are unable to resolve the issue in a reasonable time through discussion, the TWRD or the Tribal water user may seek relief through the Compact Board. The DNRC agrees to assist the TWRD in obtaining reasonable access onto the non-tribal water user's land to observe the challenged development or change in use or transfer.

HeinOnline -- 1997 vol. I 1196 1997

c. The TWRD and the DNRC may jointly develop supplemental procedures as necessary or appropriate. Such supplemental procedures are pursuant to, and will not be deemed a modification of, this Compact.

6. Powers and Duties. The Board shall hold hearings upon notice in proceedings before it and shall have the power to administer oaths, take evidence and issue subpoenas to compel attendance of witnesses or production of documents or other evidence, and to appoint a technical expert for the purposes of Section B.2.b. of Article IV. The Tribe and the State shall enforce the Board's subpoenas in the same manner as prescribed by the laws of the Tribe and the State for enforcing a subpoena issued by the courts of each respective sovereign in a civil action. The parties to the controversy may present evidence and cross examine any witnesses. The Board shall determine the controversy and grant any appropriate relief, including a temporary order; provided that, the Board shall have no power to award money damages, costs, or attorneys fees. All decisions of the Board shall be by majority vote and in writing. The Board shall adopt necessary rules and regulations to carry out its responsibilities within six months after its first meeting. All records of the Board shall be open to public inspection, except as otherwise ordered by the Board.

7. Review and Enforcement of Board Decisions.

a. Decisions by the Board shall be effective immediately, unless stayed by the Board. Unless otherwise provided by Congress, only the United States and parties to the proceedings before the Board may appeal any final decision by the Board to a court of competent jurisdiction within thirty (30) days of such decision. The hearing on appeal shall be a trial de novo. The notice of appeal shall be filed with the Board and served personally or by registered mail upon all parties to the proceeding before the Board.

b. Unless an appeal is filed within thirty (30) days of a final decision of the Board, as provided in Section D.7.a. of Article IV, any decision of the Board shall be recognized and enforced by any court of competent jurisdiction on petition of the Board, or any party before the Board in the proceeding in which the decision was made.

c. A court of competent jurisdiction in which a timely appeal is filed pursuant to Section D.7.a. of Article IV, or in which a petition to confirm or enforce is filed pursuant to Section D.7.b. of Article IV, may order such temporary or permanent relief as it considers just and proper.

d. Any appeal may be taken from any decision of the court in which a timely appeal is filed pursuant to Section D.7.a. of Article IV, or in which a petition to confirm or enforce is filed pursuant to Section D.7.b. of Article IV, in the manner and to the same extent as from orders or judgments of the court in a civil action.

e. In any appeal or petition to confirm or enforce the Board's decision, the Board shall file with the court the record of the proceedings before the Board within sixty (60) days of filing of a notice of appeal.

8. Waiver of Immunity. The Tribe and the State hereby waive their respective immunities from suit, including any defense the State shall have under the Eleventh Amendment of the Constitution of the United States, in order to permit the resolution of disputes under this Compact by the Chippewa Cree-Montana

HeinOnline -- 1997 vol. I 1197 1997

Compact Board, and the appeal or judicial enforcement of Board decisions as provided herein, except that such waivers of sovereign immunity by the Tribe or the State shall not extend to any action for money damages, costs, or attorneys' fees. The parties agree that only Congress can waive the immunity of the United States. The participation of the United States in the proceedings of the Compact Board shall be as provided by Congress.

ARTICLE V - DISCLAIMERS AND RESERVATIONS

A. No Effect on Tribal Rights or Other Federal Reserved Water Rights.

1. The relationship between the water rights of the Chippewa Cree Tribe described herein and any rights to water of any other Indian Tribe, or of any federally derived water right of an individual, or of the United States on behalf of such Tribe or individual shall be determined by the rule of priority.

2. Nothing in this Compact may be construed or interpreted in any manner to establish the nature, extent, or manner of administration of the rights to water of any other Indian tribes and tribal members of other Indian tribes.

3. Nothing in this Compact is otherwise intended to conflict with or abrogate a right or claim of an Indian Tribe other than the Chippewa Cree Tribe regarding its boundaries or property interests.

4. Nothing in this Compact may be construed or interpreted in any manner to establish the nature, extent, or manner of administration of the rights to water of any other federal agency or federal lands other than those of the Chippewa Cree Tribe.

The parties intend that the water rights and other rights confirmed to the Tribe in this Compact are in full satisfaction of the Tribe's water rights claims, including federal reserved water rights claims based on Winters v. *Be it enacted by the Legislature of the State of Montana:*

**Section 1. Shareholder agreements.** (1) An agreement among the shareholders of a corporation that complies with this section is effective among the shareholders and the corporation even though it is inconsistent with one or more other provisions of this chapter in that it:

(a) eliminates the board of directors or restricts the discretion or powers of the board of directors;

(b) governs the authorization or making of distributions, whether or not in proportion to ownership of shares, subject to the limitations in 35-1-712;

(c) establishes who must be directors or officers of the corporation or their terms of office or manner of selection or removal;

(d) governs, in general or in regard to specific matters, the exercise or division of voting power by or between the shareholders and directors or by or among any of them, including use of weighted voting rights or director proxies;

(e) establishes the terms and conditions of any agreement for the transfer or use of property or the provision of services between the corporation and any shareholder, director, officer, or employee of the corporation or among any of them;

(f) transfers to one or more shareholders or other persons all or part of the authority to exercise the corporate powers or to manago the business and affairs of the corporation, including the resolution of any issue about which there exists a deadlock among directors or shareholders;

(g) requires dissolution of the corporation at the request of one or more of the shareholders or upon the occurrence of a specified event or contingency; or

(h) otherwise governs the exercise of the corporate powers or the management of the business and affairs of the corporation or the relationship among the

HeinOnline -- 1997 vol. II 1206 1997

shareholders, the directors, and the corporation or among any of them and is not contrary to public policy.

(2) An agreement authorized by this section must be:

(a) set forth:

(i) in the articles of incorporation or bylaws and approved by all persons who are shareholders at the time of the agreement; or

(ii) in a written agreement that is signed by all persons who are shareholders at the time of the agreement and that is made known to the corporation;

(b) subject to amendment only by all persons who are shareholders at the time of the amendment, unless the agreement provides otherwise; and

(c) valid for 10 years, unless the agreement provides otherwise.

(3) The existence of an agreement authorized by this section must be noted conspicuously on the front or back of each certificate for outstanding shares or on the information statement required by 35-1-627(2). If at the time of the agreement the corporation has shares outstanding represented by certificates, the corporation shall recall the outstanding certificates and issue substitute certificates that comply with this subsection. The failure to note the existence of the agreement on the certificate or information statement may not affect the validity of the agreement or any action taken pursuant to it. Any purchaser of shares who, at the time of purchase, did not have knowledge of the existence of the agreement must be entitled to rescission of the purchase. A purchaser is considered to have knowledge of the existence of the agreement if its existence is noted on the certificate or information statement for the shares in compliance with this subsection and, if the shares are not represented by a certificate, the information statement is delivered to the purchaser at or prior to the time of purchase of the shares. If the agreement ceases to be effective for any reason, the hoard of directors may, if the agreement is contained or referred to in the corporation's articles of incorporation or bylaws, adopt an amendment to the articles of incorporation or bylaws, without shareholder action, to delete the agreement and any references to it.

(5) An agreement authorized by this section that limits the discretion or powers of the board of directors must relieve the directors of, and impose upon the porson or persons in whom the discretion or powers are vested, liability for acts or omissions imposed by law on directors to the extent that the discretion or powers of the directors are limited by the agreement.

(6) The existence or porformance of an agreement authorized by this section may not be a ground for imposing personal liability on any shareholders for the acts or debts of the corporation even if the agreement or its performance treats

HeinOnline -- 1997 vol. II 1207 1997

the corporation as if it were a partnership or results in failure to observe the corporate formalities otherwise applicable to the matters governed by the agreement.

(7) Incorporators or subscribers for shares may act as shareholders with respect to an agreement authorized by this section if shares have not been issued when the agreement is made.

(c) that the small miner will provide a map locating the miner's mining operations. The map must be of a size and scale determined by the department.

(d) if the small miner's operations are placer or dredge mining, that the small miner *shall salvage and protect all soil materials for use in reclamation of that*

HeinOnline -- 1997 vol. II 1235 1997

*site and* shall reclaim all land disturbed by the operations to comparable utility and stability as that of adjacent areas.

(2) For small-miner exemptions obtained after September 30, 1985, a small miner may not obtain or continue an exemption under subsection (1) unless the small miner annually certifies in writing:

*Be it enacted by the Legislature of the State of Montana:*

**Section 1.** Section 75-2-211, MCA, is amended to read:

**"75-2-211. Permits for construction, installation, alteration, or use.** (1) The board shall by rule provide for the issuance, modification, suspension, revocation, and renewal of a permit issued under this part.

(2) Not later than 180 days before construction, installation, or alteration begins or as a condition of use of any machine, equipment, device, or facility that the board finds may directly or indirectly cause or contribute to air pollution or that is intended primarily to prevent or control the emission of air pollutants, the owner or operator shall file with the department the appropriate permit application on forms available from the department.

(3) The permit program administered by the department pursuant to this section must include the following:

(a) requirements and procedures for permit applications, including standard application forms;

(b) requirements and procedures for submittal of information necessary to determine the location, quantity, and type of emissions;

(c) procedures for public notice and opportunity for comment or public hearing, as appropriate;

(d) procedures for providing notice and an opportunity for comment to contiguous states and federal agencies, as appropriate;

(e) requirements for inspection, monitoring, recordkeeping, and reporting;

(f) procedures for the transfer of permits;

(g) requirements and procedures for suspension, modification, and revocation of permits by the department;

(h) requirements and procedures for appropriate emission limitations and other requirements, including enforceable measures necessary to ensure compliance with those limitations and requirements;

(i) requirements and procedures for permit modification and amendment; and

(j) requirements and procedures for issuing a single permit authorizing emissions from similar operations at multiple temporary locations, which permit may include conditions necessary to ensure compliance with the requirements of this chapter at all authorized locations and a requirement that the owner or operater notify the department in advance of each change in location.

(4) This section does not restrict the board's authority to adopt regulations providing for a single air quality permit system.

(5) The department may, for good cause shown, waive or shorten the time required for filing the appropriate applications.

(6) The department shall require that applications for permits be accompanied by any plans, specifications, and other information that it considers necessary.

HeinOnline -- 1997 vol. II 1239 1997

(7) An application is not considered filed until the applicant has submitted all fees required under 75-2-220 and all information and completed application forms required pursuant to subsections (2), (3), and (6) of this section. If the department fails to notify the applicant in writing within 30 days after the purported filing of an application that the application is incomplete and fails to list the reasons why the application is considered incomplete, the application is considered filed as of the date of the purported filing.

(8) (a) If an application for a permit requires the preparation of an environmental impact statement under the Montana Environmental Policy Act, Title 75, chapter 1, parts 1 through 3, the department shall notify the applicant in writing of the approval or denial of the application within:

(i) 180 days after the department's receipt of a filed application, as provided in subsection (7), if the department prepares the environmental impact statement; ~~or~~

(ii) ~~within~~ 30 days after issuance of the final environmental impact statement by the lead agency if a state agency other than the department has been designated by the governor as lead agency for preparation of the environmental impact statement~~.~~; *or*

*(iii) if the application is for a machine, equipment, a device, or a facility at an operation that requires a permit under Title 82, chapter 4, part 1, 2, or 3, 30 days of issuance of the final environmental impact statement in accordance with time requirements of Title 82, chapter 4, part 1, 2, or 3.*

(b) If an application does not require the preparation of an environmental impact statement, the department shall notify the applicant in writing within 60 days after its receipt of a filed application, as provided in subsection (7), of its approval or denial of the application. The time for notification may be extended for 30 days by written agreement of the department and the applicant. Additional 30-day extensions may be granted by the department on request of the applicant. Notification of approval or denial may be served personally or by certified mail on the applicant or the applicant's agent.

(c) If an application for a permit is for the construction, installation, alteration, or use of a source that is also required to obtain a license pursuant to 75-10-221 or a permit pursuant to 75-10-406, the department shall act on the permit application within the time period provided for in 75-2-215(3)(e).

(d) Failure by the department to act in a timely manner does not constitute approval or denial of the application. This does not limit or abridge the right of any person to seek available judicial remedies to require the department to act in a timely manner.

(9) When the department approves or denies the application for a permit under this section, a person who is jointly or severally adversely affected by the department's decision may request a hearing before the board. The request for hearing must be filed within 15 days after the department renders its decision and must include an affidavit setting forth the grounds for the request. The contested case provisions of the Montana Administrative Procedure Act, Title 2, chapter 4, part 6, apply to a hearing before the board under this subsection.

HeinOnline -- 1997 vol. II 1240 1997

(10) The department's decision on the application is not final unless 15 days have elapsed from the date of the decision and there is no request for a hearing under this section. The filing of a request for a hearing postpones the effective date of the department's decision until the conclusion of the hearing and issuance of a final decision by the board."

**Section 2.** Section 75-20-204, MCA, is amended to read:

**"75-20-204. Facilities subject to federal energy regulatory commission jurisdiction.** (1) For a facility that is subject to the jurisdiction of the federal energy regulatory commission, the department shall file a state recommendation with the commission.

(2) A person making application to the federal energy regulatory commission shall file with the department notice of and a copy of the federal application regarding any facility subject to subsection (1). The state recommendation must be based on its study of the federal application and other material gained through intervention in the federal proceeding.

(3) A person subject to the provisions of subsection (2) shall pay a fee to the department ~~pursuant to 85-2-124~~ at the time *that* an application is filed with the federal energy regulatory commission. The fee ~~shall~~ *must* be used by the department to carry out its responsibilities ~~under Title 85, chapter 2, and~~ to develop a state recommendation and participate as a party in any necessary federal proceeding to assert the state recommendation. *The fee may not exceed one-half the amount that could be assessed under 75-20-215.* ~~No~~ *A* fee prescribed by 75-20-215 may *not* be assessed against a person paying a fee under this section.

~~(11)~~*(10)* may conduct hearings under the provisions of this part."

**Section 4.** Section 82-4-361, MCA, is amended to read:

**"82-4-361. The hoard shall adopt rules to implement and administer a procedure for waiver of a penalty under this subsection.

(3) The department shall notify the person or operator of the violation. The department shall issue a statement of proposed penalty within 30 days after notice of the violation. (2) The civil penalties provided for in this section may be waived for a minor violation if it is determined that the violation does not represent potential harm to puhlic health, public safety, or the environment and does not impair the administration of this part. The board shall adopt rules to implement and administer a procedure for waiver of a penalty under this subsection.

(3) The department shall notify the person or operator of the violation. The person or operator is entitled, by filing a written request within 20 days of receipt of the notice of violation, to a hearing on the issues of whether the alleged violation has occurred and whether the penalty proposed to be imposed is proper. The department shall issue a statement of proposed penalty no more than 10 days after notice of violation. After the hearing or after the time for requesting a hearing has expired, the ~~board~~ *department* shall make findings of fact, issue a written decision as to the occurrence of the violation and the amount of penalty warranted, and order the payment of a penalty in that amount. **"39-71-605. Examination of employee by physician — effect of refusal to submit to examination — report and testimony of physician — cost.** (1) (a) Whenever in case of injury the right to compensation under this chapter would exist in favor of any employee, the employee shall, upon the written request of the insurer, submit from time to time to examination by a physician, *psychologist,* or panel ~~of physicians, who~~ *that* must be provided and paid for by the insurer, and shall likewise submit to examination from time to time by any physician, *psychologist,* or panel ~~of physicians~~ selected by the department *or as ordered by the workers' compensation judge.*

(b) The request or order for an examination must fix a time and place for the examination, with regard for the employee's convenience, physical condition, and ability to attend at the time and place that is as close to the employee's residence as is practical. *An examination that is conducted by a physician, psychologist, or panel licensed in another state is not precluded under this section.* The employee is entitled to have a physician present at any examination. If the employee, after written request, fails or refuses to submit to the examination or in any way obstructs the examination, the employee's right to compensation must be suspended and is subject to the provisions of 39-71-607. Any physician, *psychologist,* or panel ~~of physicians~~ employed by the insurer or the department who makes or is present at any examination may be required to testify as to the results of the examination.

(2) In the event of a dispute concerning the physical condition of a claimant or the cause or causes of the injury or disability, if any, the department *or the workers' compensation judge,* at the request of the claimant or insurer, as the case may be, shall require the claimant to submit to an examination as it considers desirable by a physician, *psychologist,* or panel ~~of physicians~~ within the state or elsewhere ~~who have~~ *that has* had adequate and substantial experience in the particular field of medicine concerned with the matters presented by the dispute. The physician, *psychologist,* or panel ~~of physicians~~ making the examination shall file a written report of findings with the claimant and insurer for their use in the determination of the controversy involved. The requesting party shall pay the physician, *psychologist,* or panel ~~of physicians~~ for the examination.

**Section 11.** Section 39-71-606, MCA, is amended to read:

**"39-71-606. (2) The department shall make available to insurers for distribution to claimants sufficient copies of a document describing current benefits and entitlements available under Title 39, chapter 71. (3) Each insurer under plan No. 2 or No. 3 for the payment of workers' compensation benefits shall notify the employer of the reopening of the claim within 14 days of the reopening of a claim for the purpose of paying compensation benefits.

(4) Upon the request of an employer *that* it insures, an insurer shall notify the employer of all compensation benefits that are ongoing and are being charged against that employer's account.

*(5) Failure of an insurer to comply with the time limitations required in this section does not constitute an acceptance of a claim as a matter of law. **"39-71-703. Compensation for permanent partial disability.** (1) If an injured worker suffers a permanent partial disability and is no longer entitled to temporary total or permanent total disability benefits, the worker is entitled to a permanent partial disability award if that worker:

(a) has an actual wage loss as a result of the injury; and

(b) has a permanent impairment rating that:

(i) is established by objective medical findings; and

(ii) is more than zero as determined by the latest edition of the American medical association Guides to the Evaluation of Permanent Impairment.

HeinOnline -- 1997 vol. II 1257 1997

(2) When a worker receives an impairment rating as the result of a compensable injury and has no actual wage loss as a result of the injury, the worker is eligihle for an impairment award only.

(3) The permanent partial disabiliity award must be arrived at by multiplying the percentage arrived at through the calculation provided in subsection (4) by 350 weeks.

(4) A permanent partial disability award granted an injured worker may not exceed a permanent partial disability rating of 100%.

(5) The percentage to he used in subsection (3) must be determined by adding all of the following applicable percentages to the impairment rating:

(a) if the claimant is 40 years of age or younger at the time of injury, 0%; if tlie claimant is over 40 years of age at the time of injury, 1%;

(b) for a worker who has completed less than 12 years of education, 1%; for a worker who has completed 12 years or more of education or wlio has received a graduate equivalency diploma, 0%;

(c) if a worker has no actual wage loss as a result of the industrial injury, 0%; if a worker has an actual wage loss of $2 or less an hour as a result of the industrial injury, 10%; if a worker has an actual wage loss of ~~more than $2~~ *more than $2* an liour as a result of tlie industrial injury, 20%. Wage loss benefits must be based on the difference between the actual wages received at the time of injury and the wages tbat tlie worker eərns or is qualified to earn after tlie worker reaches maximum healing.

(d) if a worker, at the time of the injury, was performing heavy labor activity and after the injury tlie worker can perform only light or sedentary labor activity, 5%; if a worker, at the time of injury, was performing heavy labor activity and after the injury the worker can perform only medium labor activity, 3%; if a worker was performing medium labor activity at the time of tlie injury and after tlie injury the worker can perform only light or sedentary labor activity, 2%.

(6) Tlie weekly benefit rate for permanent partial disability is 66 2/3% of the wages received at tlie time of injury, but the rate may not exceed one-lialf the state's average weekly wage. The weekly benefit amount established for an injured worker may not be clianged by a subsequent adjustment in the state's average weekly wage for future fiscal years.

(7) If a worker suffers a subsequent compensable injury or injuries to the same part of the body, the award payable for the subsequent injury may not duplicate any amounts paid for the previous injury or injuries.

(8) If a worker is eligible for a reliabilitation plan, permanent partial disability benefits payable under this section must be calculated based on the wages tliat tlie worker earns or would be qualified to earn following the completion of the reliabilitation plan.

(9) As used in this section:

(a) "heavy labor activity" means the ability to lift over 50 pounds occasionally or up to 50 peunds frequently;

**"39-71-712. Temporary partial disability benefits.** (1) If, prior to maximum healing, an injured worker has a physical restriction and is approved to return to a modified or alternative employment that the worker is able and qualified to perform and the worker suffers an actual wage loss as a result of a temporary work restriction, the worker qualifies for temporary partial disability benefits.

(2) An insurer's liability for temporary partial disability must be the difference between the injured worker's average weekly wage received at the time of the injury, subject to a maximum of 40 hours a week, and the actual weekly wages earned during the period that the claimant is temporarily partially disabled, not to exceed the injured worker's temporary total disability benefit rate.

(3) Temporary partial disability benefits are limited to a total of 26 weeks. The insurer may extend the period of temporary partial disability payments.

(4) *A worker is not eligible for temporary partial disability benefits or temporary total disability benefits if:*

*(a) the worker has been released by the treating physician to return to a modified or alternative position that the individual is able and qualified to perform with the same employer;*

*(b) the wages payable in the modified or alternative position, when combined with the temporary partial disability benefits, would result in an equivalent or higher wage than the worker received at the time of injury; and*

*(c) the worker refuses to accept the modified or alternative position.* A worker requalifies for temporary total disability benefits if the modified *or alternative* position is no longer available to the worker and the worker continues to be temporarily totally disabled as defined in 39-71-116.

(5) Temporary partial disability may not be credited against any permanent partial disability award or settlement under 39-71-703."

(b) a rehabilitation provider, as designated by the insurer, certifies that the injured worker has reasonable vocational goals and *reasonable* reemployment opportunity ~~and~~. *If eligible because of an impairment rating of 15% or more, with rehabilitation the worker will have a reasonable increase in the worker's wage compared to the wage that the worker received at the time of injury. If eligible because of a wage loss, the worker* will have a reasonable reduction in the worker's actual wage loss with rehabilitation~~; and~~.

(c) a rehabilitation plan agreed upon by the injured worker and the insurer is filed with the department. The plan must take into consideration the worker's age, education, training, work history, residual physical capacities, and vocational interests. The plan must specify a beginning and completion date. If the plan calls for the expenditure of funds under 39-71-1004, the department shall authorize the department of public health and human services to use the funds.

(2) After filing the rehabilitation plan with the department, the disabled worker is entitled to receive biweekly compensation benefits at the injured worker's temporary total disability rate. The benefits must be paid for the period specified in the rehabilitation plan, not to exceed 104 weeks. The rehabilitation plan must be completed within 26 weeks of the completion date specified in the plan. Rehabilitation benefits must be paid biweekly while the worker is satisfactorily progressing in the agreed-upon rehabilitation plan. Benefits under this section are not subject to the lump-sum provisions of 39-71-741.

(3) A worker may not receive temporary total benefits and the benefits under subsection (2) during the same period of time.

(4) A rehabilitation provider authorized by the insurer shall continue to assist the injured worker until the rehabilitation plan is completed.

(5) To be eligible for benefits under this section, a worker is required to begin the rehabilitation plan within 78 weeks of reaching maximum medical healing.

(6) A worker may not receive both wages and rehabilitation benefits without the written consent of the insurer. A worker who receives both wages and rehabilitation benefits without written consent of the insurer is guilty of theft and may be prosecuted under 45-6-301."

HeinOnline -- 1997 vol. II 1264 1997

**Section 22.** Section 39-71-2351, MCA, is amended to read:

**"39-71-2351. Purpose of separation of state fund liability as of July 1, 1990, and of separate funding of claims before and on or after that date.** (1) An unfunded liability exists in the state fund. It has existed since at least the mid-1980s and has grown each year. There have been numerous attempts to solve the problem by legislation and other methods. These attempts have alleviated the problem somewhat, but the problem has not been solved.

(2) The legislature has determined that it is necessary to the public welfare to make workers' compensation insurance available to all employers through the state fund as the insurer of last resort. In making this insurance available, the state fund has incurred the unfunded liability. The legislature has determined that the most cost-effective and efficient way to provide a source of funding for and to ensure payment of the unfunded liability and the best way to administer the unfunded liability is to:

~~(a)~~ separate the liability of the state fund on the basis of whether a claim is for an injury resulting from an accident that occurred before July 1, 1990, or an accident that occurs on or after that date;

~~(b) create an old fund liability tax provided for in 39-71-2503 and dedicate the tax money first to the repayment of bonds issued under 39-71-2354 and 39-71-2355 and then to the repayment of loans given under 39-71-2354 and 39-71-2355 and the direct payment of the costs of administering and paying claims for injuries from accidents that occurred before July 1, 1990.~~

(3) The legislature further determines that in order to prevent the creation of a new unfunded liability with respect to claims for injuries for accidents that occur on or after July 1, 1990, certain duties of the state fund should be clarified and legislative oversight of the state fund should be increased."

**Section 23.** Section 39-71-2352, MCA, is amended to read:

**"39-71-2352. Separate payment structure and sources for claims for injuries resulting from accidents that occurred before July 1, 1990, and on or after July 1, 1990 — spending limit.** (1) Premiums paid to the state fund based upon wages payable before July 1, 1990, may be used only to administer and pay claims for injuries resulting from accidents that occurred before July 1, 1990. (2) The state fund shall:

(a) determine the cost of administering and paying claims for injuries resulting from accidents that occurred before July 1, 1990, and separately determine the cost of administering and paying claims for injuries resulting from accidents that occur on or after July 1, 1990;
